In 2013, Brookfield Multiplex expanded into the Kingdom of Saudi Arabia with a project management mandate for the Lamar Towers project, which will be amongst the tallest towers in the Jeddah area of Saudi Arabia once completed.

2012 Activity

In 2012, we fully realized our final investment in Brookfield Capital Partners Fund I, our first private equity fund. Over the life of the fund we generated an overall net internal rate of return of 24.5% and a net 1.9x initial investment return for our investors.

On October 30, 2012, we partnered with HomeServices of America, Inc. to create Berkshire Hathaway HomeServices, a new franchise brand that joins the existing brands and affiliate networks of Prudential Real Estate and Real Living Real Estate. We received consideration consisting of cash and a one-third interest in Berkshire Hathaway HomeServices.

On November 21, 2012, the Corporation and Johnson Controls agreed to merge their respective Australian and New Zealand property and facility operations to create Brookfield Johnson Controls. This merger closed in the first quarter of 2013. We acquired Johnson Controls' interest in Brookfield Johnston Controls in the first quarter of 2015 and rebranded the business as Brookfield Global Integrated Solutions.

On December 4, 2012, Brookfield Residential acquired a California development site called Playa Vista in central Los Angeles for approximately \$250 million.

In December 2012, we completed a sale of a portion of our equity in Western Forest through a C\$75 million secondary offering. We no longer own an interest in Western Forest.

In December 2012, Ainsworth completed a C\$175 million rights offering and an issuance of \$350 million principal amount of 7.5% notes. This recapitalization refinanced substantially all of Ainsworth's indebtedness, reducing interest costs by 46% and extending maturities from 2014 to 2017. We continue to control Ainsworth, which is expected to merge with Norbord in March 2015.

BUSINESS OF THE CORPORATION

Our Business

Brookfield is a global alternative asset manager with over \$200 billion in assets under management. For more than 100 years we have owned and operated assets on behalf of shareholders and clients with a focus on property, renewable energy, infrastructure and private equity.

Our business model is simple: (i) raise pools of capital from ourselves and clients that target attractive investment strategies, (ii) utilize our global reach to identify and acquire high-quality assets at favourable valuations, (iii) finance them on a long-term basis, (iv) enhance the cash flows and values of these assets through our operating platforms to earn reliable, attractive long-term total returns, and (v) realize capital from asset sales or refinancings when opportunities arise.

Our business is centred around the ownership and operation of real assets, which we define as long-life, physical assets that form the critical backbone of economic activity, including property, renewable energy and infrastructure facilities. Whether they provide high-quality office or retail space in major urban markets, generate reliable clean electricity, or transport goods and resources between key locations, these assets play an essential role within the global economy. Additionally, these assets typically benefit from some form of barrier to entry, regulatory regime or other competitive advantage that provide for relatively stable cash flow streams, strong operating margins and value appreciation over the longer term.

We currently own and manage one of the world's largest portfolios of real assets. We have established a variety of investment products through which our clients can invest in these assets, including both listed entities and private funds. We actively invest our own capital alongside our clients, ensuring a meaningful alignment of interests.

We are active managers of capital. We strive to add value by judiciously and opportunistically reallocating capital to continuously increase returns. As real asset operations tend to be industry specific and often driven by complex regulations, we believe operational experience is necessary in order to maximize efficiency, productivity and returns. Our track record shows that we can add meaningful value and cash flow through "hands-on" operational expertise, whether through the negotiation of property leases, energy contracts or regulatory agreements, or through a focus on optimizing asset development, operations or other activities.

We strive to finance our operations on a long-term, investment-grade basis, and most of our capital consists of equity and stand-alone asset-by-asset financing with minimal recourse to other parts of the organization. We also strive to maintain excess liquidity at all times in order to respond to opportunities as they arise. This provides us with considerable stability and enables our management teams to focus on operations and other growth initiatives. It also improves our ability to withstand financial downturns and provides the strength and flexibility to capitalize upon attractive opportunities.

We prefer to invest when capital is less available to a specific market or industry and in situations that tend to require a broader range of expertise and be more challenging to execute. We believe these situations provide much more attractive valuations than competitive auctions and we have considerable experience in this specialized field.

We maintain development and capital expansion capabilities and a large pipeline of attractive opportunities. This provides flexibility in deploying capital, as we can invest in both acquisitions and organic developments, depending on the relative attractiveness of returns.

As an asset manager, we create value for shareholders in the following ways:

- We offer attractive investment opportunities to our clients through our managed funds and entities that will, in turn, enable us to earn base management fees based on the amount of capital that we manage, and additional returns such as incentive distributions and carried interests based on our performance. Accordingly, we create value by increasing the amount of capital under management and by achieving strong investment performance that leads to increased cash flows and asset values.
- We invest significant amounts of our own capital, alongside our clients in the same assets. This differentiates us from many of our competitors, creates a strong alignment of interest with our clients and enables us to create value by directly participating in the cash flows and value increases generated by these assets, in addition to the performance returns that we earn as the manager.
- Our operating capabilities enable us to increase the value of the assets within our businesses, and the cash flows they produce. Through our operating expertise, development capabilities and effective financing, we believe our specialized real asset experience can help to ensure that an investment's full value creation potential is realized. We believe this is one of our most important competitive advantages as an asset manager.
- We aim to finance assets effectively, using a prudent amount of leverage. We believe the majority of our assets are well suited to support an appropriate level of investment-grade secured debt with long-dated maturities given the

predictability of the cash flows and tendency of these assets to retain substantial value throughout economic cycles. This is reflected in our return on net capital deployed, our overall return on capital and our cost of capital. While we tend to hold our assets for extended periods of time, we endeavour to own our businesses in a manner that maximizes our ability to realize the value and liquidity of our assets on short notice and without disrupting our operations.

- Finally, as an investor and capital allocator with a value investing culture and expertise in recapitalizations and operational turnarounds, we strive to invest at attractive valuations, particularly in situations that create opportunities for superior valuation gains and cash flow returns.

Principal Business Activities

Our operations are organized into five principal groups (“operating platforms”). Our property, renewable energy, infrastructure and private equity platforms are responsible for operating the assets owned by our various funds and investee companies. The equity capital invested in these assets is provided by a series of listed partnerships and private funds which are managed by us and are funded with capital from ourselves and our clients. A fifth group operates our public markets business, which manages portfolios of listed securities.

We have formed a large capitalization listed partnership entity in each of our property, renewable energy and infrastructure groups, which serves as the primary vehicle through which we invest in each respective segment. As well as owning assets directly, these partnerships serve as the cornerstone investors in our private funds, alongside capital committed by institutional investors. This approach enables us to attract a broad range of public and private investment capital and the ability to match our various investment strategies with the most appropriate form of capital. Our private equity business is conducted primarily through private funds with capital provided by institutions and ourselves.

Our balance sheet capital is invested primarily in our three flagship listed partnerships: Brookfield Property Partners; Brookfield Renewable Partners; and Brookfield Infrastructure Partners, our private equity funds, and in several directly held investments and businesses.

Asset Management

We manage a wide range of investment funds and other entities that enable institutional and retail clients to invest in these assets. We earn asset management income including fees, carried interests and other forms of performance income for doing so. As at December 31, 2014, our managed funds and listed partnerships represented \$89 billion of invested and committed fee bearing capital. These products include publicly listed partnerships that are listed on major stock exchanges as well as private institutional partnerships that are available to accredited investors, typically pension funds, endowments and other institutional investors. We also manage portfolios of listed securities through a series of segregated accounts and mutual funds.

Listed Partnerships: We manage publicly listed, perpetual capital entities with over \$42 million of fee bearing capital, including Brookfield Property Partners, Brookfield Renewable Partners and Brookfield Infrastructure Partners. We are compensated for managing these entities through base management fees which are primarily determined by the market capitalization of these entities. We also are entitled to receive incentive distributions equal to a portion of increases in partnership distributions above a pre-determined hurdle.

Private Funds: We manage \$29 billion of fee bearing capital through 32 private funds. Private fund capital is typically committed for 10 years with two one-year extension options. Our private fund investor base consists of 280 third-party clients with an average commitment of \$80 million. We are compensated through base fees which are generally determined on both called and uncalled commitments, and are entitled to receive carried interests, which represents a portion of investment returns provided that clients receive a minimum pre-determined return.

Public Markets: We manage numerous funds and separately managed accounts on behalf of third-party clients, focused on fixed income and equity securities. We act as an advisor for these clients and earn base and performance fees for managing our public securities portfolios.

Property

We own virtually all of our commercial property assets through our 62% economic ownership interest in Brookfield Property Partners, which is listed on the NYSE and TSX and had an equity capitalization of \$18.1 billion at December 31, 2014, based on public pricing. We also own \$1.3 billion of preferred shares of Brookfield Property Partners which yield 6.2% based on their redemption value.

Brookfield Property Partners privatized its office subsidiary, Brookfield Office Properties, during the second quarter of 2014, acquiring the 51% of common shares that it did not own. Two-thirds of the transaction consideration was in the form of Brookfield Property Partners equity units and the remaining one-third was cash, which resulted in a decrease of our economic ownership interest in Brookfield Property Partners from 89% at December 31, 2013 to 68%. During the fourth quarter of 2014, Brookfield Property Partners issued \$1.8 billion of convertible preferred equity, which reduced our economic ownership interest from 68% to 62% on an “as-converted” basis.

Brookfield Property Partners' operations are principally organized as follows:

Office Properties: We own interests in and operate commercial office portfolios, consisting of 244 properties containing over 112 million square feet of commercial office space. The properties are located in major financial, energy, technology and government cities in North America, Europe, Australia, Brazil and India. We also develop office properties on a selective basis and our office development assets consist of interests in 21 sites totalling approximately 19 million square feet.

Retail Properties: Our retail portfolio consists of interests in 164 retail properties in the United States and Brazil, encompassing 154 million square feet. Our North American retail operations are held through our 33% fully diluted interest in GGP and a 34% interest in Rouse. Our Brazilian operations are held through a 35% owned institutional fund managed by us. We also own an interest in a retail property company in Shanghai, China. In addition, our retail mall portfolio has a redevelopment pipeline that exceeds \$600 million (on a proportionate basis).

Other Properties: We own and operate industrial, multifamily, hotel and triple net lease properties. Our industrial portfolio consists of interests in 168 operating properties in North America and Europe, containing 44 million square feet of space. We also own and manage a land portfolio with the potential to build 54 million square feet of industrial properties. Our multifamily portfolio includes over 27,800 multifamily units in the United States and Canada, while our hotel portfolio includes 11 properties with 8,700 rooms. Our triple net lease portfolio consists of over 300 properties that are leased to automotive dealerships across the United States and Canada.

Renewable Energy

We hold our renewable energy operations primarily through a 63% economic ownership interest in Brookfield Renewable Partners, which is listed on both the NYSE and TSX and had an equity capitalization of \$8.5 billion at December 31, 2014, based on public pricing. Brookfield Renewable Partners operates renewable energy facilities and owns them both directly as well as through our private infrastructure funds.

We arrange for the sale of power generated by Brookfield Renewable Partners through the Corporation's wholly owned energy marketing business ("Brookfield Energy Marketing"). We purchase a portion of Brookfield Renewable Partners' power pursuant to long-term contracts at pre-determined prices, providing a stable revenue profile for unitholders of Brookfield Renewable Partners and providing us with continued participation in future increases (or decreases) in power prices. Brookfield Energy Marketing is entitled to sell the power as well as any ancillary revenues, such as capacity and renewable energy credits or premiums.

Brookfield Renewable Partners owns one of the world's largest, publicly traded, pure-play renewable energy portfolios with 6,700 MW of installed capacity, and long-term average annual generation of 24,000 GWh. This portfolio includes 204 hydroelectric generating stations on 72 river systems and 28 wind facilities, diversified across 13 power markets in the United States, Canada, Brazil and Europe. Brookfield Renewable Partners also has an approximate 2,000 MW development pipeline spread across all of our operating jurisdictions.

Infrastructure

Our infrastructure operations are held primarily through our 28% economic ownership interest in Brookfield Infrastructure Partners, which is listed on the NYSE and TSX and had an equity capitalization of \$8.8 billion at December 31, 2014, based on public pricing. Brookfield Infrastructure Partners owns a number of these infrastructure businesses directly as well as through private funds that we manage. We also have direct investments in sustainable resources operations.

Brookfield Infrastructure Partners's operations are principally organized as follows:

Utilities operations: These consist of regulated distribution, regulated terminal and electricity transmission operations, located in Australasia, North and South America and Europe. These businesses typically earn a pre-determined return based on their asset base, invested capital or capacity and the applicable regulatory frameworks and long-term contracts. Accordingly, the returns tend to be highly predictable and typically not impacted to any great degree by short-term volume or price fluctuations.

Transport operations: These are comprised of open access systems that provide transportation for freight, bulk commodities and passengers, for which we are paid an access fee. Profitability is based on the volume and price achieved for the provision of these services. These operations are comprised of businesses with regulated tariff structures, such as our rail and toll road operations, as well as unregulated businesses, such as our ports. Approximately 80% of our transport operations are supported by long-term contracts or regulation.

Energy operations: These consist of systems that provide energy transmission, distribution and storage services. Profitability is based on the volume and price achieved for the provision of these services. These operations are comprised of businesses that are subject to light regulation, such as our natural gas transmission business whose services are subject to price ceilings, and businesses that are essentially unregulated like our district energy business. Approximately 80% of our energy operations are supported by long-term contractual revenues.

Private Equity and Other

Our private equity operations are conducted through a series of institutional private equity funds operated under the Brookfield Capital Partners brand with total committed capital of \$3.3 billion, as well as direct investments in several private companies and public companies including Norbord.

Our private funds include 16 investments in a diverse range of industries. Our average investment is \$45 million and our largest single exposure is \$374 million. We concentrate our investing activities on businesses with tangible assets and cash flow streams in order to better protect our capital.

Our largest direct investment is a 52% interest in Norbord, which is one of the world's largest producers of oriented strand board. The market value of our investment in Norbord at December 31, 2014 was approximately \$618 million based on market prices.

Our residential development operations consist primarily of direct investments in two companies: Brookfield Residential and Brookfield Incorporações S.A. ("BISA"), as well as directly held operations in Australia.

Our North American business is conducted through Brookfield Residential. As at December 31, 2014, we held approximately 71% of Brookfield Residential, which was listed on the NYSE and TSX. Brookfield Residential is active in 11 principal markets located primarily in Canada, and the U.S., and controls over 105,000 lots in these markets. Our major focus is on entitling and developing land for building homes or for the sale of lots to other builders. In December 2014, we entered into a definitive arrangement to acquire the 29% of common shares of Brookfield Residential that we do not already own by way of a court-approved plan of arrangement for \$24.25 per common share. We completed this transaction on March 13, 2015, acquiring 32.4 million common shares of Brookfield Residential.

Our Brazilian business is conducted through BISA, one of the leading developers in Brazil's real estate industry. These operations include land acquisition and development, construction, and sales and marketing of a broad range of "for sale" residential and commercial office units, with a primary focus on middle income residential. The operations are conducted in Brazil's main metropolitan areas, including São Paulo, Rio de Janeiro, the Brasilia Federal District, and the six other markets that collectively account for the majority of the Brazilian real estate market. We acquired 262 million shares of BISA during November 2014, increasing our ownership from 45% to 87%, and are completing a process to acquire the remaining shares of BISA that we do not own.

Our service activities businesses consist primarily of construction services, which we conduct through Brookfield Multiplex, and property services businesses. Our property services businesses generate fees from property and facility management, leasing and project management and a range of other real estate services.

Corporate Activities

Our corporate operations primarily consist of allocating capital to our operating platforms, principally through our listed partnerships (Brookfield Property Partners, Brookfield Renewable Partners and Brookfield Infrastructure Partners) and through directly held investments and interests in our private equity funds, as well as funding this capital through the issuance of corporate borrowings and preferred shares. We also invest capital in portfolios of financial assets and enter into financial contracts to manage our foreign currency and interest rate risks.

Financing Strategy

The following are key elements of our capital strategy:

- Match our long-life assets with long-duration mortgage financings with a diversified maturity schedule;
- Provide recourse only to the specific assets being financed, with limited cross collateralization or parental guarantees;
- Limit borrowings to investment-grade levels based on anticipated performance throughout a business cycle; and
- Structure our affairs to facilitate access to a broad range of capital and liquidity at multiple levels of the organization.

Most of our borrowings are in the form of long-term, property-specific financings such as mortgages or project financings secured only by the specific assets. We attempt to diversify our maturity schedule so that financing requirements in any given year are manageable. Limiting recourse to specific assets or business units is intended to limit the impact of weak performance by one asset or business unit on our ability to finance the balance of the operations.

Most of our financings have investment-grade characteristics which is intended to ensure that debt levels on any particular asset or business can typically be maintained throughout a business cycle, and to enable us to limit covenants and other performance requirements, thereby reducing the risk of early payment requirements or restrictions on the distribution of cash from the assets being financed. Furthermore, our ability to finance at the corporate, operating unit, and asset level on a private or public basis is intended to lessen our dependence on any particular segment of the capital markets or the performance of any particular unit.

We maintain sufficient liquidity at the corporate level and within our key operating platforms in order to enable us to react to attractive investment opportunities and deal with contingencies when they arise. Our primary sources of liquidity, which we refer to as “core liquidity,” consist of our cash and financial assets, net of deposits and other associated liabilities, and undrawn committed credit facilities.

We historically generate substantial liquidity within our operations on an ongoing basis through our operating cash flow, as well as from the turnover of assets with shorter investment horizons and periodic monetization of our longer dated assets through dispositions and refinancings. Accordingly, we believe we have the necessary liquidity to manage our financial commitments and to capitalize on attractive investment opportunities.

Operating Capabilities

We believe that we have the necessary capabilities to execute our business strategy and achieve our performance targets. To this end, we strive for excellence and quality in each of our core operating platforms in the belief that this approach will produce strong returns over the long term.

We endeavour to operate as a value investor and follow a disciplined investment approach. Our management team has considerable capabilities in investment analysis, mergers and acquisitions, divestitures and corporate finance that enable us to acquire assets for value, finance them effectively, and to ultimately realize value created during our ownership.

Our operating platforms and depth of experience in managing these assets differentiate us from those competitors that have shorter investment horizons and more of a speculative focus. These operating platforms have been established over the course of many years and are fully integrated into our organization. This has required considerable investment in building the management teams and the necessary resources; however, we believe these platforms enable us to optimize the cash returns and values of the assets that we manage.

We have established strong relationships with a number of leading institutional investors and believe we are well positioned to continue increasing the capital managed for others on a fee bearing basis. We are investing in our distribution capabilities to encourage existing and potential clients to commit capital to our investment strategies. To achieve this, we are continually expanding the breadth of resources we devote to these activities, and our efforts continue to be assisted by favourable investment performance.

The diversification within our operations allows us to offer a broad range of products and investment strategies to our clients. We believe this is of considerable value to investors with large amounts of capital to deploy. In addition, our commitment to transparency and ethical business conduct, as well as our position in the market as a well-capitalized public company listed on major North American and European stock exchanges, positions us as a desirable long-term partner for our clients.

Finally, our commitment to invest a meaningful amount of capital alongside our investors creates a strong alignment of interest between us and our investment partners and also differentiates us from many of our competitors. Accordingly, our strategy includes maintaining considerable surplus financial resources. This capital also supports our ability to commit to investment opportunities on our own account when appropriate or in anticipation of future syndications.

Risk Management

Managing risk is an integral part of Brookfield’s business and we have a disciplined and focused approach to risk management.

The assessment and management of risk is the responsibility of our management team. Given the diversified and decentralized nature of our operations, we seek to ensure that risk is managed as close to its source as possible, and by management teams that have the most knowledge and expertise in the business or risk area.

As such, business specific risks are generally managed at the operating platform level, as the risks vary based on the unique business and operational characteristics. The specific manner and methodologies by which risks are addressed and mitigated vary based upon, among other things, the nature of the risks and of the assets and operations to which they apply, the geographic location of the assets, the economic, political and regulatory environment, and Brookfield’s assessment of the benefits to be derived from such mitigation strategies.

At the same time, we utilize a coordinated approach among our corporate group and our operating platforms to risks that can be more pervasive and correlated in their impact across the organization, such as foreign exchange and interest rate risks, and where we can bring together specialized knowledge to manage these risks. Management of strategic, reputational and regulatory compliance risks are similarly coordinated to ensure consistent focus on organizational objectives.

The Corporation’s Chief Financial Officer has ultimate responsibility for the risk management function and discharges the responsibility with the assistance of risk management group, which works with various operational and functional groups within Brookfield to coordinate the risk management program and to develop and implement risk mitigation strategies that are appropriate for the Corporation.

These efforts leverage the work conducted by management committees that have been formed to bring together required expertise to manage and oversee key risk areas, and include:

- A risk management steering committee to support the overall corporate risk management program, and coordinate risk assessment and mitigation on an enterprise-wide basis;
- Investment committees to oversee the investment process as well as monitor the ongoing performance of investments;
- A conflicts committee to resolve potential conflict situations in the investment process and other corporate transactions;
- A financial risk oversight committee to review and monitor financial exposures;
- A safety steering committee to focus on health, safety and environmental matters; and
- A disclosure committee to oversee the disclosure of non-financial information.

The Corporation's board of directors (the "Board") has governance oversight for risk management with a focus on the more significant risks facing the Corporation, and builds upon management's risk assessment and oversight processes.

Employees

As at December 31, 2014, we employed approximately 30,000 people worldwide.

CODE OF BUSINESS CONDUCT AND ETHICS

We have a Code of Business Conduct and Ethics (the “Code”) that sets out the expected conduct of our directors, officers and employees, and those of the Corporation’s subsidiaries and controlled affiliates, in relation to honesty, integrity and compliance with all legal and regulatory requirements. The Board approved the Code on February 12, 2015. Copies of the Code are available on the System for Electronic Document Analysis and Retrieval (“SEDAR”) at www.sedar.com and the Electronic Data Gathering, Analysis and Retrieval System (“EDGAR”) at www.sec.gov/edgar, and may also be obtained on our website at www.brookfield.com under “The Company/Conduct Guidelines.”

BUSINESS ENVIRONMENT AND RISKS

Our businesses continuously face certain micro and macro economic risks that could adversely impact our financial condition, results of operations and equity value. For information about risk factors related to Brookfield and its businesses, reference is made to the section entitled “Business Environment and Risks” on pages 62 to 74 of our Consolidated Financial Statements and Management Discussion and Analysis of Financial Results for the fiscal year ended December 31, 2014, which pages are incorporated by reference in this Annual Information Form and available on SEDAR at www.sedar.com and EDGAR at www.sec.gov/edgar.

CORPORATE SOCIAL RESPONSIBILITY

At Brookfield, we often invest with a view that we would be content to own an asset forever. That long-term approach dictates both our investment strategy and our commitment to corporate social responsibility. We have always believed that the pursuit of shareholder value and sustainable development are complementary goals. We know that Brookfield’s future success depends on the long-term health of the communities in which we do business and the environment in which we operate. Accordingly, the Board, the Corporation’s management and our employees strive for excellence in environmental sustainability, community leadership and workplace safety in all our operations.

Our approach to corporate social responsibility is an ongoing process that is continually reviewed and improved. In all of our businesses, we seek to meet or exceed the labour laws and standards of the jurisdictions in which we operate, offering competitive wages to employees, providing safe work environments, and implementing age-appropriate and non-discriminatory hiring practices. As we continue to grow and become increasingly global in scope, we see increased opportunities to improve our commitment to building a better world. Across Brookfield, our corporate social responsibility initiatives are broadly focused on two themes:

- Sustainable Growth
- Community Engagement

Sustainable Growth

Brookfield has more than 100 years of experience as an operator of real assets in property, renewable energy, infrastructure and private equity, and has built an expertise in sustainable investing. Across our portfolio of long life, high-quality assets, there is a commitment to reducing the energy we use and our greenhouse gas emissions. We also focus on water conservation, recycling, wildlife preservation, erosion control and reforestation. We have consistently adopted best practices on sustainability developed in one region to all our operations. We participate in surveys and studies that allow global benchmarking of our sustainability initiatives.

Property

In our global property operations, we provide responsible environmental solutions and energy-saving strategies to our tenants and our communities. We achieve this goal through an approach that is based on three principles which guide our actions on sustainability:

- Develop, operate and renovate properties to reduce carbon emissions and achieve optimum energy efficiency and occupant satisfaction;
- Incorporate innovative environmental strategies to achieve best-in-industry sustainability performance in new developments and in the retrofitting and redesign of existing properties; and
- Support industry initiatives that foster energy- and resource-efficient property operations, and seek the highest standard of environmental certification.

For our clients across our \$117 billion property portfolio, sustainability is a priority and we strive to exceed their expectations by constantly improving our properties. Innovations this year include the launch of a partnership with the Canadian Institute for Energy Training that introduced an energy efficiency certification program for tenants and employees. Graduates of the five-week course are rolling out innovative energy conservation strategies across our property portfolio.

In North America, the standard in environmental excellence is the Leadership in Energy & Environmental Design or LEED designation. We received this certification on 11 buildings over the course of the year, with 49 Brookfield properties now LEED certified. Moving forward, we have pledged to build all future office developments to a minimum of LEED Gold or its local equivalent. In 2014, Brookfield also obtained BOMA (Building Owners and Managers Association) 360 designations for all of its Canadian properties, certifying the highest environmental operating standards. Our properties also meet or exceed recognized environmental standards in Australia, South America and Europe.

Within our buildings, Brookfield is working with tenants to increase awareness of sustainability and incorporate best practices in environmental management. Our employees take part in ongoing education programs focused on the latest initiatives in sustainable development and many have obtained sustainable building management designations. This knowledge has enabled Brookfield to launch property programs that include energy efficient transportation, such as car pools and biking, and tenant energy reporting portals, which allow our clients to better understand and control their electricity use. We have launched water reduction programs in our office properties, resulting in a 15% decline in water use at our Canadian portfolio over the past five years.

Our influence reaches beyond assets that we own directly. Brookfield provides real estate services to office buildings, industrial properties and multifamily homes. Our condominium services company, which manages 67,000 units, introduced programs last year that lowered energy consumption and saved clients approximately \$1 million annually.

Renewable Energy

With approximately 204 hydro stations and 30 wind farms on three continents, Brookfield is one of the world's largest suppliers of renewable energy. In 2014, we made our first investment in biomass, agreeing to acquire a facility in Brazil that generates electricity from the residue left after crushing sugar cane. In an average year, our \$20 billion renewable energy portfolio provides enough clean electricity to supply approximately three million homes, offsetting power generation that may otherwise increase greenhouse gas emissions. The ability of our hydro assets to produce energy at peak periods and conserve water during off-peak periods meets an important social need, as we deliver clean power when demand is at its highest.

Brookfield's renewable energy operations meet or exceed sustainability standards set by industry groups such as the U.S. Low Impact Hydropower Institute and the Canadian Electricity Association.

Infrastructure

Our \$25 billion infrastructure portfolio includes 3.8 million acres of timberlands under management and 580,000 acres of farmland in North and South America. These trees and crops offset greenhouse gas emissions by capturing and storing carbon dioxide and are a truly renewable resource. In managing our timber and agriculture assets, we incorporate sustainable harvesting practices, along with our own internal standards and regulations set down in government statutes in three countries. Our timber operations meet or exceed measures set under the U.S. Sustainable Forestry Initiative® (SFI 2010-2014 Standard). In Brazil, our skills in forest management resulted in Brookfield being awarded responsibility for preserving the Tamboré Biological Reserve near São Paulo, one of the country's largest urban conservation areas.

Community Engagement

We encourage and support a culture of philanthropy and volunteerism among our employees around the world. Brookfield and its people contribute to their communities. This commitment shows in everyday activities in support of charities, and in exceptional contributions during times of need.

All of our employees are encouraged to participate in community activities and fundraising, and our executives hold leadership positions on the boards and capital campaigns at major charities and public institutions, such as hospitals and universities. Our Brookfield Partners Foundation supports health care, education and cultural initiatives. In many cases, the Corporation matches charitable donations by employees.

Among many noteworthy initiatives in 2014, a group of our European employees traveled to South Africa and participated in a three-week project to build a 'House of Hope' to house children orphaned by HIV/AIDS. In Brazil, Brookfield partnered with local government and banks on 'Pineapple Project' which provided land and training to farmers under a subsidized leasing system. The initiative saw 72 rural families become fruit-growing entrepreneurs, with the tools and skills needed to make a lasting impact in their communities. In Canada, Brookfield Partners Foundation founded an Institute for Innovation and Entrepreneurship in the business school of a leading university.

Our arts and events program, Arts Brookfield, has been in operation for more than 25 years, and celebrated this anniversary with a year-long program called “Arts Set Free”, which saw emerging, established and amateur artists submit original artworks in any genre, style and medium for display at Brookfield properties around the world. Last year, Americans for the Arts, an independent advocacy group, named Brookfield one of the 10 Best Business Partners with the Arts. Brookfield staged more than 400 events in 2014, including concerts, exhibitions and public art installations. These programs are offered free to the public and staged in public spaces at our flagship properties in North and South America, Australia and Europe.

RATINGS AND LIQUIDITY

The credit ratings for the Corporation's securities as at the date of this Annual Information Form are as follows:

Securities of the Corporation	DBRS		Standard & Poor's		Moody's		Fitch	
	Rating	Outlook	Rating	Outlook	Rating	Outlook	Rating	Outlook
Commercial paper	R-1 (low)	Stable	A-2 ¹	Stable	P-2	Stable	Not rated	Not rated
Senior notes and debentures	A (low)	Stable	A-	Stable	Baa2	Stable	BBB-	Stable
Preferred shares	Pfd-2 (low)	Stable	BBB ²	Stable	Not rated	Not rated	Not rated	Not rated

Credit ratings are important to the Corporation's borrowing costs and ability to raise funds. A ratings downgrade could potentially result in adverse consequences by reducing the Corporation's access to the capital markets and increasing its borrowing costs. The terms of our various credit agreements and other financing documents require us to comply with a number of customary financial and other covenants, such as maintaining debt service coverage and leverage ratios, insurance coverage and, in limited circumstances, ratings levels. These covenants may limit our operational flexibility, and breaches of these covenants could result in defaults under the instruments governing the applicable indebtedness even if we have satisfied our payment obligations.

Credit ratings are intended to provide investors with an independent measure of the credit quality of an issue of securities. Each of the Corporation's debt and preferred securities are rated by DBRS Limited ("DBRS") and by Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. ("S&P"); its commercial paper, senior notes and debentures are rated by Moody's Investors Service, Inc. ("Moody's"); and its senior notes and debentures are rated by Fitch Ratings, Inc. ("Fitch").

The Corporation has paid customary ratings fees to DBRS, S&P, Moody's and Fitch in connection with some or all of the above-mentioned ratings. In addition, the Corporation has made customary payments in respect of certain other services provided to the Corporation by each of DBRS, S&P, Moody's and Fitch during the last two years.

The ratings discussed herein for the Corporation's debt and preferred securities are not a recommendation to purchase, hold or sell the Corporation's debt or preferred securities and do not comment as to the appropriateness of their respective market prices or suitability for a particular investor. There can be no assurance that the ratings discussed herein will remain in effect for any given period of time or that the ratings will not be revised or withdrawn in their entirety by any or all of DBRS, S&P, Moody's or Fitch in the future if, in their sole discretion, circumstances so warrant.

The investment ratings of our publicly traded subsidiaries are presented in the respective public disclosures of these subsidiaries, which are available on SEDAR at www.sedar.com and/or EDGAR at www.sec.gov/edgar.

The following is a brief description of each ratings agency's rating schedule.

DBRS

DBRS has different rating scales for short-term debt, long-term debt and preferred shares. Every DBRS rating is based on quantitative and qualitative considerations relevant to the issuer and the relative ranking of claims.

The DBRS short-term debt rating scale provides an opinion on the risk that an issuer will not meet its short-term financial obligations in a timely manner. The R-1 and R-2 rating categories are further denoted by the subcategories "(high)", "(middle)" and "(low)". The absence of either a "(high)" or "(low)" designation indicates the rating is in the middle of the category. The R-1 (low) rating assigned to the Corporation's commercial paper indicates good credit quality and that the Corporation's capacity for the payment of short-term financial obligations as they fall due is substantial. Overall strength is not as favourable as higher rating categories and may be vulnerable to future events, but qualifying negative factors are considered manageable.

The DBRS long-term rating scale provides an opinion on the risk that an issuer will default on its financial obligations. All rating categories other than AAA and D also contain subcategories "(high)" and "(low)". The A (low) rating assigned to the Corporation's long-term obligations indicate they are of good-credit quality. The capacity for the payment of financial obligations is substantial and may be vulnerable to future events, but qualifying negative factors are considered manageable.

¹ The Corporation's commercial paper is rated A-1 (low) based on S&P's Canadian National Scale, which corresponds to a rating of A-2 using S&P's global scale.

² The Corporation's preferred shares are rated P-2 based on S&P's Canadian National Scale, which corresponds to a rating of BBB using S&P's global scale.

The DBRS preferred share rating scale is used in the Canadian securities market and is meant to give an indication of the risk that a borrower will not fulfill its full obligations in a timely manner, with respect to both dividend and principal commitments. Each rating category is denoted by the subcategories “(high)” and “(low)”. The Pfd-2 (low) rating assigned to the Corporation’s preferred shares indicates that the preferred shares are of satisfactory credit quality.

Rating trends provide guidance in respect of DBRS’s opinion regarding outlook for the rating in question. The “Stable” rating trend indicates a lower likelihood that the rating could change in the future than would be the case if the rating trend was positive or negative.

S&P

S&P has different rating scales for short-term debt, long-term debt and preferred shares. S&P rates commercial paper, long-term credit and preferred shares with ratings of “A-1,” “AAA” and “P-1,” respectively, which represent the highest ratings, to “C” which represents the lowest, with “D” for issues in payment default. To show relative rankings within these rating categories, S&P may modify them by the addition of a plus “(+)” or minus “(-)”.

S&P further modifies its ratings by indicating the stability and future direction of an assigned rating with terms such as “stable,” “positive,” “negative” and “developing.” A rating outlook assesses the potential direction of a long-term credit rating over the intermediate term (typically six months to two years). An outlook is not necessarily a precursor of a rating change or future action.

S&P also provides national scale credit ratings which are an opinion of an obligor’s creditworthiness or overall capacity to meet specific financial obligations, relative to other issuers and issues in a given country or region. The Canadian National Scale rating is fully determined by the applicable global scale rating, and there are no additional analytical criteria associated with the determination of ratings on the Canadian National Scale.

S&P short-term ratings indicate the creditworthiness of an obligor with respect to its short-term obligations. The Corporation has a U.S. commercial paper program and a Canadian commercial paper program. The A-2 Stable rating, based on S&P’s global scale, is assigned to the Corporation’s commercial paper and indicates S&P’s view that the Corporation’s capacity to meet its financial commitments on these obligations is satisfactory. A Canadian commercial paper rating is a forward-looking opinion about the capacity of an obligor to meet the financial commitments associated with a specific commercial paper program relative to the debt servicing and repayment capacity of other obligors active in the Canadian markets with respect to their respective financial obligations. S&P has rated the Corporation’s commercial paper as A-1 (low) based on the Canadian National Scale for commercial paper, which is the equivalent of an A-2 rating on S&P’s global scale.

S&P long-term issue credit ratings are based on the following considerations: likelihood of payment – capacity and willingness of the obligor to meet its financial commitment on an obligation in accordance with the terms of the obligation; nature of and provisions of the obligation; and protection afforded by, and relative position of, the obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors’ rights. The A- Stable rating assigned to the Corporation’s senior unsecured debt indicates that the Corporation has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

An S&P preferred share rating on the Canadian National Scale is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific preferred share obligation issued in the Canadian market, relative to preferred shares issued by other obligors in the Canadian market. The Corporation’s preferred shares have been assigned a rating of P-2 Stable on S&P’s Canadian National Scale for preferred shares. The P-2 rating category is the second highest of the eight categories on the Canadian preferred share scale. Based on S&P’s global scale, the Corporation’s preferred shares are rated BBB, which corresponds to a rating of P-2 on the Canadian National Scale for preferred shares. According to the S&P rating system, securities rated P-2 exhibit adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

Moody’s

Moody’s has different rating scales for short-term debt, long-term debt and preferred shares. Ratings assigned by Moody’s, based on its global long-term and short-term rating scales, are forward-looking opinions of the relative credit risks of financial obligations issued by a company. Moody’s also provides rating outlook designations which is an opinion regarding the likely rating direction over the medium term.

Moody’s rates long-term obligations and commercial paper with ratings of “Aaa” and “P-1,” respectively, which represent the highest ratings, to “C” and “NP,” respectively, which represent the lowest. Moody’s appends numerical modifiers 1, 2 and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Moody's short-term ratings are assigned to obligations with an original maturity of 13 months or less and reflect the likelihood of a default on contractually promised payments. The P-2 Stable rating assigned to the Corporation's commercial paper indicates that the Corporation has a strong ability to repay its short-term debt obligations.

Moody's long-term ratings are assigned to issuers or obligations with an original maturity of one-year or more and reflect both on the likelihood of a default on contractually promised payments and the expected financial loss suffered in the event of default. The Baa2 Stable rating assigned to the Corporation's senior unsecured debt indicates that they are considered medium-grade and subject to moderate credit risk, and as such, may possess certain speculative characteristics.

Fitch

Fitch rates long-term obligations with ratings of "AAA," which represents the highest rating, to "C," which represents the lowest with "RD" and "D" for issues in payment default. To show relative rankings within these categories, Fitch may modify them by the addition of a plus "+" or minus "-." Fitch modifies its ratings by indicating the outlook of an assigned rating with terms such as "stable," "positive," "evolving" and "negative." Rating outlooks indicate the direction a rating is likely to move over a one- to two-year period. The "Stable" rating outlook means that the rating is not likely to change over a one- to two-year period.

Long-term credit ratings are used as a benchmark measure of probability of default and are formally described as an Issuer Default Rating ("IDR"). IDRs opine on an entity's relative vulnerability to default on financial obligations. The BBB- Stable rating assigned to the Corporation's senior unsecured debt indicates that expectations of default risk are currently low and that the capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.

DIVIDENDS AND DIVIDEND POLICY

Class A Shares and Class B Shares

The declaration and payment of dividends on the Corporation's Class A Shares and Class B Shares are at the discretion of the Board. Dividends on the Class A Shares and Class B Shares are paid quarterly, at the end of March, June, September and December of each year. The Board supports a stable and consistent dividend policy and will consider increasing dividends from time to time at a rate based on a portion of the growth rate in cash flow from operations per share. Special dividends may also be declared from time to time to implement corporate strategic initiatives.

The Corporation has a Dividend Reinvestment Plan which enables registered holders of Class A Shares who are resident in the United States or Canada to receive their dividends in the form of newly issued Class A Shares.

Registered shareholders of Class A Shares who are resident in the United States may elect to receive their dividends in the form of newly issued Class A Shares at a price equal to the volume-weighted average price (in U.S. dollars) at which the shares traded on the NYSE based on the average closing price during each of the five trading days immediately preceding the relevant dividend payment date (the "NYSE VWAP").

Registered shareholders of Class A Shares who are resident in Canada may also elect to receive their dividends in the form of newly issued Class A Shares at a price equal to the NYSE VWAP multiplied by an exchange factor which is calculated as the average noon exchange rate as reported by the Bank of Canada during each of the five trading days immediately preceding the relevant dividend payment date.

Our Dividend Reinvestment Plan allows current shareholders of the Corporation who are resident in the United States or Canada to increase their investment in the Corporation free of commissions.

AUDIT COMMITTEE INFORMATION

Responsibilities of the Audit Committee

The Corporation's Board has established an Audit Committee (the "Audit Committee") with the responsibility for monitoring the Corporation's systems and procedures for financial reporting and internal controls, for reviewing all public disclosure documents containing financial information, and for monitoring the performance of the Corporation's external and internal auditors. The responsibilities of the Audit Committee are set out in a written charter, which is reviewed and approved annually by the Board. The current Charter of the Audit Committee is set out in full in Appendix C to this Annual Information Form.

Composition of the Audit Committee

As at the date of this Annual Information Form, the Audit Committee is comprised of the following three directors: Marcel R. Coutu; Philip B. Lind; and George S. Taylor, who is the Audit Committee's chair. The Board has determined that all of these directors are independent and financially literate, and that Mr. Coutu and Mr. Taylor each qualify as a "designated financial expert." Mr. Coutu has a Master of Business Administration degree and over 20 years' experience in investment banking and corporate finance. He is the former President and Chief Executive Officer of Canadian Oil Sands Limited. Mr. Lind, formerly the Vice-Chairman of Rogers Communications, has 45 years of senior management experience. Mr. Taylor is a Certified Management Accountant and has extensive financial and senior management experience with a public company as an executive of John Labatt Limited from 1977 to 1995. He has served as an audit committee member and audit committee chair for a number of public companies and non-profit organizations during his business career.

Additional information on the members of the Audit Committee is contained in the most recent Circular.

Principal Accountant Fees and Services

Deloitte LLP, together with the member firms of Deloitte Touche Tohmatsu Limited and their respective affiliates (collectively "Deloitte"), is the principal external auditor of the Corporation and its consolidated reporting issuer subsidiaries (other than Brookfield Renewable Partners). The following table provides information about the aggregate fees billed to the Corporation and its consolidated subsidiaries for professional services rendered by Deloitte during 2014 and 2013:

YEARS ENDED DECEMBER 31 (MILLIONS)	2014			2013		
	<i>Brookfield</i>	<i>Subsidiaries of Brookfield</i>	<i>Total</i>	<i>Brookfield</i>	<i>Subsidiaries of Brookfield</i>	<i>Total</i>
Audit fees	\$ 2.8	\$ 22.4	\$ 25.2	\$ 3.8	\$ 31.6	\$ 35.4
Audit-related fees	—	5.4	5.4	0.3	1.8	2.1
Tax fees	—	2.3	2.3	0.3	0.9	1.2
All other fees	0.2	0.2	0.4	0.1	0.7	0.8
Total	\$ 3.0	\$ 30.3	\$ 33.3	\$ 4.5	\$ 35.0	\$ 39.5

Audit Fees. Audit fees include fees for services that would normally be provided by the external auditor in connection with statutory and regulatory filings or engagements, including fees for services necessary to perform an audit or review in accordance with generally accepted auditing standards. This category also includes services that generally only the external auditor reasonably can provide, including comfort letters, statutory audits, attest services, consents and assistance with and review of certain documents filed with securities regulatory authorities.

Audit-Related Fees. Audit-related fees are for assurance and related services, such as due diligence services, that traditionally are performed by the external auditor. More specifically, these services include but are not limited to: employee benefit plan audits, accounting consultations and audits in connection with acquisitions, attest services that are not required by statute or regulation, and consultation concerning financial accounting and reporting standards.

Tax Fees. Tax fees are principally for assistance in tax return preparation and tax advisory services.

All Other Fees. All other fees include fees for translation services.

Pre-Approval Policies and Procedures

The Audit Committee has adopted an Audit and Non-Audit Services Pre-Approval Policy (the "Audit Policy"), which governs the provision of services by its external auditor, currently Deloitte. The Audit Policy requires Audit Committee pre-approval of all permitted audit, audit-related, tax and other non-audit services. It also specifies a number of services that may not be provided by the Corporation's external auditor, including all services prohibited by law from being provided by the external auditor.

Under the Audit Policy, all permitted services to be provided by the external auditor must be pre-approved by the Audit Committee or a designated member of the Audit Committee. Any pre-approval granted by a designated member must be reported to the Audit Committee at its next scheduled meeting.

The Audit Committee may delegate its pre-approval authority and responsibility to the audit committee of any consolidated subsidiary of the Corporation in respect of services to be provided to such subsidiary, provided that such subsidiary's audit committee members are independent from the Corporation and its management, such subsidiary adopts pre-approval policies and procedures that are substantially similar to those of the Corporation, and such subsidiary's audit committee makes certain reports to the Audit Committee.

Under the Audit Policy, the Audit Committee has established a fee threshold for pre-approved services, which is that the aggregate fees paid to the external auditor for pre-approved services must equal no more than 25% of the anticipated audit fees for the Corporation and its subsidiaries for the prior year. Each quarter the external auditor provides the Audit Committee with a report of the audit, audit-related, tax and other non-audit services provided for the then-ended quarter, together with the actual fees incurred, for the Audit Committee's ratification.

None of the fees reported in this Annual Information Form under the heading "Principal Accountant Fees and Services" were subject to the de minimis exception from Audit Committee pre-approval provided by Rule 2-01(c)(7)(i)(C) of Regulation S-X.

APPENDIX B

SUMMARY OF TERMS AND CONDITIONS OF THE CORPORATION'S AUTHORIZED SECURITIES

CERTAIN PROVISIONS OF THE CLASS A PREFERENCE SHARES

The following is a summary of certain provisions attaching to or affecting the Class A Preference Shares as a class.

Series

The Class A Preference Shares may be issued from time to time in one or more series. The Board of the Corporation will fix the number of shares in each series and the provisions attached to each series before issue.

Priority

The Class A Preference Shares rank senior to the Class AA Preference Shares, the Class A Shares, the Class B Shares and other shares ranking junior to the Class A Preference Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs. Each series of Class A Preference Shares ranks on a parity with every other series of Class A Preference Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs.

Shareholder Approvals

The Corporation shall not delete or vary any preference, right, condition, restriction, limitation or prohibition attaching to the Class A Preference Shares as a class or create preference shares ranking in priority to or on parity with the Class A Preference Shares except by special resolution passed by at least 66 2/3% of the votes cast at a meeting of the holders of the Class A Preference Shares duly called for that purpose, in accordance with the provisions of the articles of the Corporation.

Each holder of Class A Preference Shares entitled to vote at a class meeting of holders of Class A Preference Shares, or at a joint meeting of the holders of two or more series of Class A Preference Shares, has one vote in respect of each C\$25.00 of the issue price of each Class A Preference Share held by such holder.

CERTAIN PROVISIONS OF THE CLASS AA PREFERENCE SHARES

The following is a summary of certain provisions attaching to or affecting the Class AA Preference Shares as a class.

Series

The Class AA Preference Shares may be issued from time to time in one or more series. The Board of the Corporation will fix the number of shares in each series and the provisions attached to each series before issue.

Priority

The Class AA Preference Shares rank junior to the Class A Preference Shares and senior to the Class A Shares, the Class B Shares and other shares ranking junior to the Class AA Preference Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs. Each series of Class AA Preference Shares ranks on a parity with every other series of Class AA Preference Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs.

Shareholder Approvals

The Corporation shall not delete or vary any preference, right, condition, restriction, limitation or prohibition attaching to the Class AA Preference Shares as a class except by special resolution passed by at least 66 2/3% of the votes cast at a meeting of the holders of the Class AA Preference Shares duly called for that purpose, in accordance with the provisions of the articles of the Corporation.

Each holder of Class AA Preference Shares entitled to vote at a class meeting of holders of Class AA Preference Shares, or at a joint meeting of the holders of two or more series of Class AA Preference Shares, has one vote in respect of each C\$25.00 of the issue price of each Class AA Preference Share held by such holder.

⁶ This provision does not apply to Class A Preference Shares, Series 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 and 16.

⁷ The required quorum for Class A Preference Shares, Series 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42 and 43 is holders of at least 25% of the outstanding shares present in person or represented by proxy. The required quorum for all other Class A Preference Shares is 50% of the outstanding shares present in person or represented by proxy.

CERTAIN PROVISIONS OF THE CLASS A SHARES AND THE CLASS B SHARES

The following is a summary of certain provisions attaching to or affecting the Corporation's Class A Shares (into which certain series of the Corporation's Preference Shares may be converted) and the Class B Shares. The attributes of the Class A Shares and the Class B Shares are substantially equivalent, except for the differing voting rights attached to the two classes of shares.

The sole holder of the Class B Shares of the Corporation is a party to a trust agreement with Computershare Trust Corporation of Canada (formerly, Montreal Trust Corporation of Canada) (as trustee for the holders of the Corporation's Class A Shares) dated August 1, 1997. The trust agreement provides, among other things, that the holder has agreed not to sell any Class B Shares, directly or indirectly, pursuant to a takeover bid, unless a concurrent bid is made to all holders of Class A Shares. The concurrent offer must be: (i) for the same percentage of Class A Shares as the percentage of Class B Shares offered to be purchased from the holder; and (ii) the same in all material respects as the offer for the Class B Shares. Among other things, the trust agreement permits: (i) a sale by the sole holder of Class B Shares at a price per share less than 115% of the market price of Class A Shares and as part of a transaction involving not more than five persons in the aggregate; and (ii) a direct or indirect sale of shares of the sole holder of the Class B Shares to a purchaser who is or will become a shareholder of that holder and will not hold more than 20% of that holder's outstanding shares as a result of the transaction.

Priority

Subject to the prior rights of the holders of the Class A Preference Shares, the Class AA Preference Shares and any other senior-ranking shares outstanding from time to time, holders of Class A Shares and Class B Shares rank on a parity with each other with respect to the payment of dividends (if, as and when declared by the Board of the Corporation) and the return of capital on the liquidation, dissolution or winding up of the Corporation or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding up its affairs.

Voting Rights

Except as set out below under "Election of Directors," each holder of Class A Shares and Class B Shares is entitled to notice of, and to attend and vote at, all meetings of the Corporation's shareholders, other than meetings at which holders of only a specified class or series may vote, and shall be entitled to cast one vote per share, which results in each of the Class A and Class B Shares controlling 50% of the aggregate voting rights of the Corporation. Subject to applicable law and in addition to any other required shareholder approvals, all matters to be approved by shareholders (other than the election of directors), must be approved: by a majority or, in the case of matters that require approval by a special resolution of shareholders, at least 66 2/3%, of the votes cast by holders of Class A Shares who vote in respect of the resolution or special resolution, as the case may be; and by a majority or, in the case of matters that require approval by a special resolution of shareholders, at least 66 2/3%, of the votes cast by holders of Class B Shares who vote in respect of the resolution or special resolution, as the case may be.

Election of Directors

In the election of directors, holders of Class A Shares, together, in certain circumstances, with the holders of certain series of Class A Preference Shares, are entitled to elect one-half of the Board of the Corporation, provided that if the holders of Class A Preference Shares, Series 1, Series 2 or Series 3 become entitled to elect two or three directors, as the case may be, the numbers of directors to be elected by holders of Class A Shares, together, in certain circumstances with the holders of certain series of Class A Preference Shares, shall be reduced by the number of directors to be elected by holders of Class A Preference Shares, Series 1, Series 2 and Series 3. Holders of Class B Shares are entitled to elect the other one-half of the Board of the Corporation.

OTHER PROVISIONS REGARDING THE SHARE CAPITAL OF THE CORPORATION

The Corporation's articles provide that each holder of shares of a class or series of shares of the Corporation entitled to vote in an election of directors has the right to cast a number of votes equal to the number of votes attached to the shares held by the holder multiplied by the number of directors to be elected by the holder and the holders of shares of the classes or series of shares entitled to vote with the holder in the election of directors. A holder may cast all such votes in favour of one candidate or distribute such votes among its candidates in any manner the holder sees fit. Where a holder has voted for more than one candidate without specifying the distribution of votes among such candidates, the holder shall be deemed to have divided the holder's votes equally among the candidates for whom the holder voted.

- (z) consider other matters of a financial nature as directed by the Board.

Limitation of Audit Committee Role

The Committee's function is one of oversight. The Corporation's management is responsible for preparing the Corporation's financial statements and, along with the internal audit function, for developing and maintaining systems of internal accounting and financial controls. The auditor will assist the Committee and the Board in fulfilling their responsibilities for review of the financial statements and internal controls, and the auditor will be responsible for the independent audit of the financial statements. The Committee expects the auditor to call to its attention any accounting, auditing, internal accounting control, regulatory or other related matters that the auditor believes warrant consideration or action. The Committee recognizes that the Corporation's finance group, the internal audit team and the auditor have more knowledge and information about the Corporation's financial affairs than do the Committee's members. Accordingly, in carrying out its oversight responsibilities, the Committee does not provide any expert or special assurance as to the Corporation's financial statements or internal controls or any professional certification as to the auditor's work.

REPORTING

The Committee will regularly report to the Board on:

- (a) the auditor's independence;
- (b) the performance of the auditor and the Committee's recommendations regarding its reappointment or termination;
- (c) the performance of the internal audit function department;
- (d) the adequacy of the Corporation's internal controls and disclosure controls;

- (e) its recommendations regarding the annual and interim financial statements of the Corporation and any reconciliation of the Corporation's financial statements, including any issues with respect to the quality or integrity of the financial statements;
- (f) its review of any other public disclosure document including the annual report and the annual and interim management's discussion and analysis of financial condition and results of operations;
- (g) the Corporation's compliance with legal and regulatory requirements, particularly those related to financial reporting; and
- (h) all other significant matters it has addressed and with respect to such other matters that are within its responsibilities.

COMPLAINTS PROCEDURE

The Committee will establish and periodically review a procedure for the receipt, retention, treatment and follow-up of complaints received by the Corporation regarding accounting, internal controls, disclosure controls or auditing matters and a procedure for the confidential, anonymous submission of concerns by employees of the Corporation regarding such matters.

REVIEW AND DISCLOSURE

The Committee will review this Charter at least annually and submit it to the Governance and Nominating Committee together with any proposed amendments. The Governance and Nominating Committee will review this Charter and submit it to the Board for approval with such further amendments as it deems necessary and appropriate.

This Charter will be posted on the Corporation's website at www.brookfield.com. The Management Information Circular of the Corporation will state that this Charter is available on the Corporation's website. This Charter will also be reproduced in full as an appendix to the Corporation's Annual Information Form.

ASSESSMENT

At least annually, the Governance and Nominating Committee will review the effectiveness of this Committee in fulfilling its responsibilities and duties as set out in this Charter and in a manner consistent with the corporate governance guidelines adopted by the Board. The Committee will also conduct its own assessment of the Committee's performance on an annual basis.

ACCESS TO OUTSIDE ADVISORS AND SENIOR MANAGEMENT

The Committee may retain any outside advisor, including legal counsel, at the expense of the Corporation, without the Board's approval, at any time. The Committee has the authority to determine any such advisor's fees and any other retention terms.

The Corporation will provide for appropriate funding, for payment of compensation to any auditor engaged to prepare or issue an audit report or perform other audit, review or attest services, and ordinary administrative expenses of the Committee.

Members will meet privately with senior management as frequently as they feel is appropriate to fulfill the Committee's responsibilities, but not less than annually.

MEETINGS

Meetings of the Committee may be called by any Member, the Chair of the Board, the Chief Executive Officer or Chief Financial Officer of the Corporation, the internal auditor or the auditor. Meetings will be held each quarter and at such additional times as is necessary for the Committee to fulfill its responsibilities. The Committee shall appoint a secretary to be the secretary of each meeting of the Committee and to maintain minutes of the meeting and deliberations of the Committee.

The powers of the Committee shall be exercisable at a meeting at which a quorum is present. A quorum shall be not less than a majority of the Members from time to time. Matters decided by the Committee shall be decided by majority vote. Subject to the foregoing, the *Business Corporations Act* (Ontario) and the by-laws of the Corporation, and, unless otherwise determined by the Board, the Committee shall have the power to regulate its procedure.

Notice of each meeting shall be given to each Member, the internal auditor, the auditor, and to the Chair of the Board and the Chief Executive Officer of the Corporation. Notice of meeting may be given orally or by letter, electronic mail, telephone or other generally accepted means not less than 24 hours before the time fixed for the meeting. Members may waive notice of any meeting and attendance at a meeting is deemed waiver of notice. The notice need not state the purpose or purposes for which the meeting is being held.

The Committee may invite from time to time such persons as it may see fit to attend its meetings and to take part in discussion and consideration of the affairs of the Committee. The Committee may require the auditors and/or members of the Corporation's management to attend any or all meetings.

“Financially Literate” means the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Corporation’s financial statements.

“Independent Director” means a director who has been affirmatively determined by the Board to have no material relationship with the Corporation, either directly or as a partner, shareholder or officer of an organization that has a relationship with the Corporation. In addition to any other requirement of applicable securities laws or stock exchange provisions, a director who:

- (a) is or was an employee or executive officer, or whose immediate family member is or was an executive officer, of the Corporation is not independent until three years after the end of such employment relationship;
- (b) is receiving or has received, or whose immediate family member is receiving or has received, during any 12-month period within the last three years more than C\$75,000 in direct compensation from the Corporation, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is not independent;
- (c) is or was a partner of, affiliated with or employed by, or whose immediate family member is or was a partner of or employed in a professional capacity by, a present or former internal or external auditor of the Corporation is not independent until three years after the end of the affiliation, partnership or employment relationship with the auditor;
- (d) is or was employed as, or whose immediate family member is or was employed as, an executive officer of another company (or its parent or a subsidiary) where any of the present (at the time of review) executive officers of the Corporation serve or served on that company’s (or its parent’s or a subsidiary’s) compensation committee, is not independent until three years after the end of such service or the employment relationship; and
- (e) is an executive officer or an employee of, or whose immediate family member is an executive officer of, another company (or its parent or a subsidiary) that has made payments to, or received payments from, the Corporation for property or services in an amount which, in any of the last three fiscal years exceeds the greater of US\$1 million or 2% of such other company’s consolidated gross revenues, in each case, is not independent until three years after falling below such threshold.

Additionally, an Independent Director for the purpose of the Committee specifically may not:

- (i) accept directly or indirectly any consulting, advisory, or other compensatory fee from the Corporation, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service); or
- (ii) be an affiliated person of the Corporation (within the meaning of applicable rules and regulations).

For the purposes of the definition of Independent Director, the term Corporation includes any parent, subsidiary or other affiliated entity of the Corporation.

In addition to the requirements for independence set out in paragraph (c) above, Members must disclose any other form of association they have with a current or former external or internal auditor of the Corporation to the Governance and Nominating Committee for a determination as to whether this association affects the Member's status as an Independent Director.

This Charter of the Audit Committee was reviewed and approved by the board of directors of the Corporation on February 12, 2015.
