DEVELOPMENT OF THE BUSINESS

The following is a summary of recent developments since January 2009 in each of our principal areas of business and at the corporate level.

Renewable Power

2012 Activity - to date

We sold 13,144,500 limited partnership units of Brookfield Renewable Energy Partners L.P. (together with its related entities, "Brookfield Renewable") through a secondary offering for gross proceeds of approximately \$345 million. As a result of the sale, we now own an economic interest of approximately 68% in Brookfield Renewable on a fully-exchanged basis.

In January 2012, we acquired a 150 megawatt (MW) wind project in the Tehachapi region of California from a U.S. wind developer. This project is located in close proximity to our existing 102 MW wind farm and benefits from a 24-year power purchase agreement with Southern California Edison. We also acquired 22 MW of additional operating wind generation capacity from our existing partner, the Coram Energy Group, and an incremental 50% interest in our 102 MW wind farm in Tehachapi, California, bringing our interest in the wind farm to 100%.

Brookfield Renewable issued C\$400 million principal amount of 4.79% medium term notes, Series 8, due February 7, 2022.

In March 2012, Brookfield Renewable and certain of its key holding companies entered into an additional credit facility to increase its committed unsecured revolving credit facility availability from \$600 million to \$900 million. As part of this transaction, the availability under Brookfield Renewable's existing credit facility was reduced from \$600 million to \$450 million.

2011 Activity

In December 2011, we completed construction at our 99 MW Granite Reliable wind project in New Hampshire, the largest wind project in the state. The project entered commercial operation in February 2012.

In late 2011, we completed construction of three other renewable power facilities totaling approximately 182 MW of capacity, including the 166 MW Comber Wind project in Ontario, a 10 MW hydro station in Minnesota, and a 6 MW hydro station in West Virginia. The completion of Comber, along with Gosfield and the Prince Wind facility in northern Ontario, brings our wind generating capacity in Ontario to more than 400 MW.

On November 28, 2011, we completed the strategic combination of the renewable power assets of Brookfield Renewable Power Inc. (“BRPI”) and Brookfield Renewable Power Fund (the “Fund”) to launch Brookfield Renewable, a Bermuda publicly-traded limited partnership focused on renewable power generation. On completion of the combination, public unitholders of the Fund received one non-voting limited partnership unit of Brookfield Renewable (“LP Unit”) in exchange for each trust unit of the Fund held, and the Fund was wound up. The LP Units were listed on the TSX on November 30, 2011.

Following the combination, we owned 73% of Brookfield Renewable on a fully-exchanged basis and the remaining 27% was held by the public. In connection with the combination, a subsidiary of Brookfield Renewable assumed all obligations relating to approximately C\$1.1 billion of unsecured public corporate bonds issued by BRPI. As well, Brookfield Renewable Power Preferred Equity Inc., a former subsidiary of the Fund and the issuer of C\$250 million of Class A Preference Shares, Series 1, is now a subsidiary of Brookfield Renewable.

We purchased a 30 MW hydro facility in Brazil for R\$300 million. This facility is near our other operations in Mato Grosso State.

We received the necessary permits to construct a \$200 million hydro project in western Canada.

In early 2011, we acquired, with certain institutional investors, a 50% interest in the 30 MW Malacha wind project located in northern California.

In May 2011, following obtaining a power purchase agreement (“PPA”), the notice to proceed for construction of the Coram wind project, a 102 MW facility located in California, was issued. Construction financing of \$150 million for the project was obtained during the second quarter of 2011. The project is scheduled to reach commercial operation at the end of March 2012.

2010 Activity

We sold 17.2 million units of the Fund through two secondary offerings, taking our ownership at the time from 50.01% to approximately 34% on a fully-exchanged basis and generating gross proceeds of \$341 million and a gain of \$291 million.

We commissioned our 51 MW Gosfield Wind facility in Ontario. All power produced from the Gosfield Wind facility is being sold at a fixed price to the Ontario Power Authority under a 22-year PPA and will qualify for the Canadian Federal Government’s ecoEnergy Program for Renewable Energy. Commercial operations started under the project’s PPA on September 16, 2010.

During the fourth quarter of 2010, construction activities commenced on two of our hydroelectric facilities in Brazil. The two facilities are anticipated to be commissioned in 2013, have a total installed capacity of 48 MW and are capable of generating a combined 242.5 GWh of generation annually. Total construction costs are expected to be R\$364.5 million.

In December 2010, we transferred to the Fund the 166 MW Comber wind project in southwestern Ontario, in close proximity to the Gosfield wind facility. The acquisition of the Comber wind project represented an investment by the Fund of C\$567 million. The Comber Wind project benefits from two 20-year PPAs with the Ontario Power Authority pursuant to the Province of Ontario’s Feed-in Tariff program.

We secured contracts for 1,300 GWh of annual generation from new developments; arranged 6,700 GWh of financial contracts covering 2011 and 2012; and extended a power sale agreement covering 554 GWh per annum until 2016, increasing stability of revenues.

2009 Activity

We transferred substantially all of our directly held Canadian operations to the Fund in two separate transactions. As part of the transfer, we agreed to purchase the uncontracted power generated by these facilities at predetermined prices in order to provide increased stability for the Fund’s operating results. The Fund in turn raised C\$760 million in two equity issues, of which we purchased C\$380 million to maintain our 50% ownership interest in the Fund at that time.

We entered into a 20-year power sales agreement with the Ontario Power Authority for the previously uncontracted output of our Ontario operations. The contract has a base price plus an additional amount in respect of on-peak production, both of which escalate annually on a predetermined basis. We are entitled to retain any ancillary revenues such as capacity payments and carbon credits.

This agreement increased the amount of generation under long-term contract from 51% to approximately 70% and reduced our reliance on shorter-term contracts, consistent with our objectives.

We invested \$120 million during 2009 to expand our operating base through a number of development initiatives including: commissioning of two facilities in Brazil with total capacity of 59 MW; continuing advancement of the development of the 50 MW Gosfield Wind facility in Ontario; the acquisition of our first wind development project in Tehachapi, California; and the execution of an agreement to acquire a 15 MW hydroelectric facility in Maine for \$30 million.

We entered into an agreement to sell our Ontario electric distribution business to FortisOntario Inc., a wholly owned subsidiary of Fortis Inc. for approximately \$68 million.

We leased approximately 11 million square feet of commercial office property during 2011, resulting in overall occupancy of 93% and a 7.3 year average term. Our average in place rent in the portfolio was \$28.57 per square foot. We continue to manage our portfolios and tenant relationships on a proactive basis, which can lead to opportunities to re-lease space for increased yields while minimizing vacancies.

We acquired 113.3 million common shares of GGP from The Fairholme Fund (“Fairholme”) for aggregate consideration of approximately \$1.7 billion, giving us and our consortium partners an approximate 38% equity interest in GGP. Subject to certain exceptions, Fairholme may not transfer such Class A Limited Voting Shares without first providing us with written notice of its desire to make such a transfer and allowing us to purchase the Class A Limited Voting Shares subject to the notice on the terms contained in the notice. In addition, Fairholme agreed to certain restrictions on the acquisition of additional Class A Limited Voting Shares.

We announced a joint venture with Peninsula Land Ltd. to launch a \$100 million real estate fund early in 2012. The average rent in the portfolio increased to \$28 per square foot, which continued to be approximately 11% below average market rents.

We signed a definitive agreement with the predecessor of GGP (“General Growth”) for a proposed recapitalization of General Growth. Overall, we added 2.1 million square feet to our portfolio and the occupancy of these properties upon completion totaled 92%.

We opened Bay Adelaide Centre, a new, 51-story, 1.2 million square foot office tower in downtown Toronto's financial core, and the first development built to achieve a LEED (Leadership in Energy and Environmental Design) Gold Standard in Toronto's financial district.

We increased our ownership of a high quality office property portfolio in Australia through the restructuring of A\$520 million of debt issued by a fund in which we acquired management rights in 2007. Following a breach of the fund's loan to value covenants in June 2009, we were able to negotiate new terms with the lenders and completed an A\$50 million rights offering which resulted in an increase of our interest to 68%. This fund owns four high quality properties in Sydney and Melbourne totaling 1.9 million square feet of office space that is 99% leased.

We announced the formation of a \$5 billion consortium (the "Consortium") dedicated to investing in under-performing real estate. The Consortium invests in equity and debt in under-valued real estate companies or real estate portfolios where value can be created for stakeholders in a variety of ways, including financial and operational restructuring, strategic direction or sponsorship, portfolio repositioning, redevelopment or other active asset management. We continue to hold 45% of Acadian.

2009 Activity

We acquired an \$8 billion portfolio of global infrastructure assets consisting primarily of utility and transport and energy businesses which significantly expanded the breadth of our operations and assets under management in this segment. The acquisition was completed by Brookfield Infrastructure, and consisted of a 40% interest in the then restructured Australian listed entity, Prime, that owned most of the acquired portfolio, as well as a direct 49% interest in a major Australian coal terminal and a 100% interest in a UK port business. Prime owned a diverse portfolio of transportation and utility assets located in Australia, the U.S., the U.K., continental Europe, New Zealand and China. We funded the acquisition with \$1.8 billion of equity, of which \$0.8 billion was funded by other shareholders of Prime, \$0.6 billion was funded by other investors in Brookfield Infrastructure, and \$0.4 billion was funded by us in

the form of additional investment in Brookfield Infrastructure. The acquired businesses are largely regulated, with the effect that approximately 80% of our infrastructure operating cash flows were generated from businesses that are regulated or underpinned by long-term contracts.

We closed a fund dedicated to the agriculture business in Brazil, with total committed capital of \$330 million. The fund is focused on investing in high quality agricultural growth opportunities across a region that is a recognized global leader in agribusiness.

Fraser Papers Inc. ("Fraser"), which initiated a court-supervised restructuring in June 2009, implemented a plan of arrangement approved by the courts in February 2011 whereby its U.S. subsidiaries (including two lumber mills located in Northern Maine) were sold to us. Following the completion of the sale, Fraser's interests in the Twin Rivers Company ("Twin Rivers") were distributed to Fraser's unsecured creditors.

We acquired 891,843 common shares of Insignia Energy Ltd. ("Insignia"), a Calgary-based oil and natural gas company engaged in the exploration for and the acquisition, development and production of natural gas and crude oil in Canada, and purchased a further 18,445,001 common shares in connection with Insignia's rights offering, increasing our ownership to approximately 66% of the issued and outstanding common shares.

We sold our Australian residential land business to a publicly traded developer for A\$270 million. These operations largely consisted of two land assemblies in Perth.

In 2011, we completed, through our Brazilian residential property businesses, R\$3.9 billion of launches and contracted sales of R\$4.4 billion.

On March 31, 2011, we combined Brookfield Homes Corporation ("Brookfield Homes") and the North American residential land and housing division of Brookfield Office Properties to form Brookfield Residential Properties Inc. ("Brookfield Residential"). The transaction created a diversified North American residential land and housing company with \$2.5 billion of assets and an equity value of approximately \$1 billion. As consideration, Brookfield Office Properties received shares of Brookfield Residential common stock representing in the aggregate approximately 50.7% of the outstanding shares of Brookfield Residential common stock, a \$265 million senior unsecured promissory note and a \$215 million junior unsecured promissory note. Brookfield Office Properties distributed rights to its common shareholders entitling them to acquire, at \$10 per share, the Brookfield Residential common shares that it received. We agreed to purchase the shares of Brookfield Residential that we would have been entitled to purchase if we had received our pro rata share of rights and to acquire any shares of Brookfield Residential that were not otherwise subscribed for in the rights offering. As a result, following completion of the transactions and the rights offering, we purchased 33,325,272 common shares of Brookfield Residential and hold 73.5% of the Brookfield Residential common shares on a fully-diluted basis.

2010 Activity

We acquired additional common shares and warrants of Ainsworth Lumber Co. Ltd. ("Ainsworth") in a privately negotiated transaction. This acquisition, and the subsequent exercise of the warrants, increased our ownership of Ainsworth to 54,635,219 common shares

or 53.5% of the issued and outstanding common shares on a fully diluted basis (excluding warrants not currently exercisable for common shares).

We sold 8.7 million shares of Norbord Inc. (“Norbord”) for approximately C\$145 million, reducing our interest from approximately 73.0% to 52.5%.

We sold Concert Industries Corp., a manufacturer of specialty non-woven airlaid fiber, to a global manufacturer of specialty papers and engineered products. Following an initial investment of \$100 million during 2004 and 2005 and subsequent restructuring, refinancing and expansion of its German facilities, we received total proceeds of \$235 million, resulting in a \$36 million gain.

In April 2010, we completed the sale of Fraser's specialty papers business to Twin Rivers, a company 51% owned by us and in December 2010, we sold Fraser's paper mill in Gorham, New Hampshire.

2009 Activity

We invested in three Western Canada-based oil and gas related companies through several acquisition and private placement transactions. At such time, two of our private equity funds owned 54% of Insignia, 83.5% of Central Alberta Well Services Corp. and 60.9% of Second Wave Petroleum.

We, together with Export Development Canada (“EDC”), announced the establishment of a C\$1 billion fund backed by EDC to provide debtor-in-possession loans and other specialty finance solutions to Canadian companies undergoing a restructuring or reorganization. We committed to provide 10 per cent of the fund's capital and we manage the fund. EDC is its largest investor with an initial participation of C\$450 million.

We acquired 163 million common shares and 81 million common share warrants of our forest-products subsidiary Norbord for approximately C\$144 million, in conjunction with Norbord's rights offering. This acquisition increased our ownership of Norbord's common shares at the time to approximately 75%.

We acquired 4,303,788 additional common shares and 254,374,654 non-voting shares of Western Forest Products Inc. (“Western”) for C\$0.19 per share in connection with Western's rights offering. This acquisition increased our ownership of Western's common and non-voting shares to 49% and 100% respectively.

We significantly expanded our Brazilian residential development business since mid-2008 through two merger transactions and two equity issues. This enabled us to expand into new geographic markets and added greater scale in the middle income market. The combined businesses generated record sales and cash flows during 2009 as a result of these initiatives as well as the continued strength of the Brazilian economy.

We invested \$248 million in our U.S. residential business, Brookfield Homes, as part of a rights offering of convertible preferred shares to all shareholders, increasing our interest at the time from 60% to 82% on a fully diluted basis.

Our publicly listed Brazilian residential business, Brookfield Incorporações S.A., completed a rights offering of 100 million new common shares, raising R\$200 million in capital. We subscribed for our pro rata share and now hold an approximately 43% interest in the company.

Asset Management and Other Services

The terms of the swap agreement provide that the agreement automatically terminates if one counterparty experiences a sufficient degree of financial distress. BUSINESS OF THE CORPORATION

Our Business

We are a global alternative asset manager with approximately \$150 billion in assets under management. For more than 100 years we have owned and operated assets on behalf of shareholders and clients with a focus on property, renewable power, infrastructure and private equity. Our business model is simple: utilize our global reach to identify and acquire high quality real assets at favourable valuations, finance them on a long-term low-risk basis, and enhance the cash flows and values of these assets through our leading operating platforms to earn reliable, attractive long-term total returns for the benefit of our partners and ourselves. We have a range of public and private investment products and services which leverage our expertise and experience and provide us with a distinct competitive advantage in the markets where we operate. We are co-listed on the NYSE, the TSX and the NYSE Euronext.

As an asset manager, we create value for shareholders in the following ways:

- We offer attractive investment opportunities to our clients that will, in turn, enable us to earn base management fees based on the amount of capital that we manage for them, and additional returns such as incentive distributions and carried interests based on our performance. Accordingly, we create value by increasing the amount of capital under management and by achieving strong investment performance that leads to increased cash flows and intrinsic value;
- We also invest significant amounts of our own capital, alongside our clients in the same assets. This creates a strong alignment of interest and enables us to create value by directly participating in the cash flows generated by these assets and increases in their values, in addition to the performance returns that we earn as the manager;
- Our operating capabilities enable us to increase the value of the assets within our businesses, and the cash flows they produce, through our operating expertise, development capabilities and effective financing. We believe that this is one of our most important competitive advantages as an asset manager; and
- Finally, as an investor and capital allocator with a value investing culture and expertise in recapitalizations and operational turnarounds, we strive to invest at attractive valuations, particularly in situations that create opportunities for superior valuation gains and cash flow returns.

Principal Business Activities

We organize our business into a number of operating platforms that are responsible for managing the assets in each of our principal segments as set forth below. As an asset manager, we have established a number of listed and unlisted entities through which our clients can invest in these assets. These consist of unlisted institutional funds, listed entities that are externally managed by us, and listed internally managed entities in which we own major interests.

Renewable Power

We have one of the largest privately owned hydroelectric power generating portfolios in the world, located on river systems in the U.S., Canada and Brazil. We have chosen to focus on hydroelectric generation because of the long-life, exceptional reliability and low operating costs of these facilities. As at December 31, 2011, we owned and managed 170 hydroelectric generating stations which generate on average approximately 15,500 GWh of electricity each year. As at December 31, 2011, we also owned and operated three wind farms as well as two natural gas-fired plants which generate an additional approximate 1,000 GWh each year. Overall, our assets have approximately 5,000 MW of generating capacity.

Property

We own and manage one of the highest quality commercial office portfolios in the world located in major financial, energy and government centre cities in North America, Australasia and Europe as well as 213 retail shopping centres in North America, Brazil and Australia. Our strategy is to concentrate our operations in high growth, supply-constrained markets that have high barriers to entry and attractive tenant bases. Our goal is to maintain a meaningful presence in each of our primary markets in order to maximize the value of our tenant relationships. Our portfolio consists of our approximately 300 million square feet of office, retail and related development as well as opportunity and finance investments.

We also maintain office development capabilities and have a substantial pipeline of attractive opportunities. We conduct a wide range of opportunistic investment strategies focused on income producing properties such as multi-residential, office, student accommodations and industrial and invest in these assets directly and through debt securities. These activities are conducted through a series of instrumental funds.

Infrastructure

During 2010, we completed a transaction that significantly, expanded the scale of our infrastructure operations. Our infrastructure group now manages approximately \$19 billion of total assets in the following sectors: transportation (ports, rail lines); utilities (electrical and natural gas transmission); and timberlands. Our strategy is to acquire and operate high quality long-life assets that generate stable cash flows, require minimal capital expenditures and, by virtue of barriers to entry or other characteristics, tend to appreciate in value over time.

Private Equity

Our private equity activities consist of our special situations operations as well as our residential operations and agricultural fund. We conduct a wide range of restructuring and bridge lending activities through investment funds and we also hold a number of investments that are mostly temporary in nature and will be sold once value is maximized or integrated into our core operations or new fund strategies. We have established major residential development businesses in North America and Brazil. We also develop agricultural investments in Brazil.

Asset Management and Other Services

We provide construction services in Australia, United Arab Emirates, United Kingdom and recently expanded into North America. Our property services business include the second largest global corporate relocation business and the second largest residential brokerage business in North America.

Operating Capabilities

We believe that we have the necessary capabilities to execute our business strategy and achieve our performance targets. We focus on disciplined and active hands-on management of assets and capital. We strive for excellence and quality in each of our core operating platforms in the belief that this approach will produce superior returns over the long term.

We endeavour to operate as a value investor and follow a disciplined investment approach. Our management team has considerable capabilities in investment analysis, mergers and acquisitions, divestitures and corporate finance that enable us to acquire assets for value, finance them effectively, and to ultimately realize value created during our ownership.

Our operating platforms and depth of experience in managing these assets differentiate us from some competitors that have shorter investment horizons and more of a financial focus. These high quality operating platforms have been established over many years and are fully integrated into our organization. This has required considerable investment in building the management teams and the necessary resources; however, we believe these platforms enable us to optimize the cash returns and values of the assets that we manage.

We have established strong relationships with a number of leading institutions and believe we are well positioned to continue increasing capital managed for others on a fee bearing basis. We are investing in our distribution capabilities to encourage existing and potential clients to commit capital to our investment strategies. We are devoting expanded resources to these activities, and our efforts continue to be assisted by favourable investment performance.

The diversification within our operations allows us to offer a broad range of products and investment strategies to our clients. We believe this is of considerable value to investors with large amounts of capital to deploy. In addition, our commitment to transparency and governance as a well-capitalized public company listed on major North American and European stock exchanges positions us as a desirable long-term partner for our clients.

Finally, our commitment to invest a meaningful amount of capital alongside our investors creates a strong alignment of interest between us and our investment partners and also differentiates us from many of our competitors. Accordingly, our strategy calls for us to maintain considerable surplus financial resources. This capital also supports our ability to commit to investment opportunities on our own account when appropriate or in anticipation of future syndications.

Financing Strategy

The strength of our capital structure and the liquidity that we maintain enable us to achieve a low cost of capital for our shareholders and at the same time provide us with the flexibility to react quickly to potential investment opportunities and adverse changes in economic circumstances.

The following are the key elements of our capital strategy:

- Co-invest with partners through listed and unlisted funds to broaden sources of equity capital;

- Match fund our long-life assets with long-duration mortgage financings with a diversified maturity schedule;
- Provide recourse only to the specific assets being financed, with limited cross collateralization or parental guarantees;
- Limit borrowings to investment-grade levels based on anticipated performance throughout a business cycle;
- Structure our affairs to facilitate access to a broad range of capital and liquidity at multiple levels of the organization; and
- Maintain access to a diverse range of financing markets.

Our strategy is to have two flagship entities within each platform, one listed and one unlisted, through which capital will be invested by us and our partners. For example, within our infrastructure operations, we have established Brookfield Infrastructure, a publicly listed entity that has a market capitalization, on a fully-exchanged basis, of approximately \$5 billion, and the Brookfield Americas Infrastructure Fund, a private investment partnership with \$2.7 billion of committed capital from institutional investors. These two entities are supplemented from time-to-time with additional listed and unlisted niche entities, such as our Latin American country-specific funds and timber funds. This provides us with access to both listed and private equity capital. In 2011, we established Brookfield Renewable as a publicly listed pure-play renewable energy company with a market capitalization, on a fully-exchanged basis, of approximately \$7 billion.

Most of our borrowings are in the form of long-term, property-specific financings such as mortgages or project financings secured only by the specific assets. The diversification of our maturity schedule means that financing requirements in any given year are manageable. Limiting recourse to specific assets or business units ensures that weak performance by one asset or business unit does not compromise our ability to finance the balance of the operations.

Our focus on structuring financings with investment-grade characteristics ensures that debt levels on any particular asset or business can typically be maintained throughout a business cycle, and also enables us to limit covenants and other performance requirements, thereby reducing the risk of early payment requirements or restrictions on the distribution of cash from the assets being financed. Furthermore, our ability to finance at the parent, operating unit, and asset level on a private or public basis means that we are not overly dependent on any particular segment of the capital markets or the performance of any particular unit.

To enable us to react to attractive investment opportunities and deal with contingencies when they arise, we typically maintain a high level of liquidity at the corporate level and within our key operating platforms. Our primary sources of liquidity, which we refer to as "core liquidity," consist of our cash and financial assets, net of deposits and other associated liabilities, and undrawn committed credit facilities.

We generate substantial liquidity within our operations on an ongoing basis through our operating cash flow, as well as from the turnover of assets with shorter investment horizons and periodic monetization of our longer-dated assets through sales, refinancings or co-investor participations. Accordingly, we believe we have the necessary liquidity to manage our financial commitments and to capitalize on opportunities to invest capital at attractive returns.

Employees

As at December 31, 2011, we employed over 23,000 people world-wide.

CODE OF BUSINESS CONDUCT AND ETHICS

We have a Code of Business Conduct and Ethics (“Code”) that sets out the expected conduct of our directors, officers and employees, and those of its subsidiaries, in relation to honesty, integrity and compliance with all legal and regulatory requirements. Our Board of Directors has approved the Code, copies of which are available on System for Electronic Document Analysis and Retrieval (“SEDAR”) at www.sedar.com and also may be obtained on our website at www.brookfield.com at *Corporate/Conduct Guidelines*.

For further information about the Code, reference is made to the section entitled “Code of Business Conduct and Ethics” on page 27 of our Management Information Circular dated March 12, 2012 (the “Circular”) which is available on SEDAR at www.sedar.com. A copy of the Circular can also be obtained from us and is available on our website www.brookfield.com at *Investors/Other Disclosure Reports*.

ENVIRONMENTAL PROTECTION, BUSINESS ENVIRONMENT AND RISKS

We have established policies and procedures for environmental management and compliance, and we have incurred and will continue to incur significant capital and operating expenditures to comply with health, safety and environmental laws and to obtain and comply with licenses, permits and other approvals and to assess and manage potential liability exposure. For information about environmental policies and risk factors related to the Corporation and our business, reference is made to the sections entitled “Business Environment and Risks” on pages 80 to 89 and “Sustainable Development and Corporate Social Responsibility” on pages 150 to 151 of our 2011 Annual Report (the “Annual Report”) which is available on SEDAR at www.sedar.com. A copy of the Annual Report can also be obtained from us and is available on our website www.brookfield.com at *Investors/Financial Reports*.

SOCIAL AND ENVIRONMENTAL POLICIES

Renewable Power

We have health and safety and environmental policies in place in connection with our power generating and transmission operations that require all employees, contractors, agents and others involved to comply with established safety, health and environmental practices. We strive to achieve excellence in safety performance and to be recognized as an industry leader in accident prevention. Our overall objective is to incur zero high risk safety incidents and zero lost time injuries. Our environmental practices are based on fundamental values of accountability, partnership and open communication. We endeavour to manage natural resources in ways that ensure sustainable development. Our approach protects and enhances the ecosystems and communities affected by our activities. We are committed to the environmentally responsible management of our assets. We pay particular attention to dam safety. Inspections and independent evaluations of our dams and other hydroelectric structures are periodically conducted, and repairs and upgrades are made to any elements or design features as may be required from time to time. Public safety is also one of our primary concerns. We endeavour to keep the lands and waterways we use for our operations safe for the general public. We also conduct information sessions for the general public to educate them of the dangers of using land and waterways of hydroelectric generating facilities for recreational purposes.

Property

As a leader in the commercial real estate industry, we are committed to continuous improvement of our environmental performance. Sustainability is a priority for our tenants, and, as landlords, our goal is to exceed their expectations. We know that shrinking the environmental footprint in our buildings, and cutting back on energy, water and waste will have a positive effect on the financial performance of our assets.

We intend to build all future office developments to a LEED Gold standard or local equivalent. The LEED Green Building Rating System is an internationally accepted scorecard for sustainable sites, water efficiency, energy and atmosphere, materials and resources, and indoor environmental quality. Within our global office portfolio:

- we currently have 20 LEED certifications;
- 80% of our U.S. office properties have earned the EPA’s ENERGY STAR award and 100% of our Canadian office properties have achieved BOMA BEST (Building Environmental Standards); and

- 80% of our Australian office properties have received a 4-Star rating or higher under NABERS.

We continue to expand and enhance the features, systems and programs that foster energy efficiency in our existing office buildings, as well as the health and safety of all of our tenants, employees and the community. We perform regular, comprehensive environmental reviews and upgrades at our office properties and endeavor to maximize energy efficiency at every office building.

Our goal is to be responsible stewards of our resources, and good citizens in all that we do. We are an active contributor in the communities where we conduct business. We are proud of the commitment we have made to corporate social responsibility. The initiatives we undertake and the investments we make in building our partnership are guided by our core set of values around sustainable development, as we create a culture and organization that can be successful today and in the future.

Infrastructure

Our infrastructure business operates within well defined legislative and regulatory frameworks related to environmental protection, climate change and carbon emissions in many jurisdictions on four continents. Throughout our operations, we strive to meet and exceed environmental standards through environmental management plans which assist us in reducing our environmental footprint and monitoring our performance over time. Our operations work proactively within their local communities and with other key stakeholders to positively contribute to the communities through sponsorship activities and local employment opportunities. A number of our infrastructure operations are ISO 14001 certified and others are currently working towards certification. As the owner and operator of Dalrymple Bay Coal Terminal (“DBCT”) in Australia, one of the world’s largest coal export terminals, we operate an established Integrated Management System alongside our third-party, customer-owned operator. DBCT has an Environmental Action Team focused on minimizing the impacts on the local marine and terrestrial ecosystems and implementing sustainability practices for water usage, recycling, noise reduction and other programs and initiatives. In addition, Brookfield Rail in Australia has a robust environmental management plan to oversee its key environmental risks, including flora and fauna, soil and water contamination, fire control, noise pollution and dangerous and hazardous cargoes. Our timberlands operations, in North and South America, provide another example of our approach to environmental protection and policies. Our timberlands are managed for long-term timber production of both solid wood and pulp and paper products and the sustainability of the operations, which is independently audited under the Sustainable Forestry Initiative (SFI). We are fully regulated by federal, state and/or provincial laws, which in many cases are more rigorous than those required under various forest practice certification schemes. The standards under which our timberlands are certified all meet the standards defined by the Programme for the Endorsement of Forest Certification schemes (“PEFC”), a globally recognized forest certification system. It is our intention that all timberlands owned and/or managed by us will become certified by PEFC, providing assurance to purchasers of wood and paper products that they are supporting the sustainable management of forests. We view these policies and procedures as standard best operating practices and we treat all related costs as direct business costs within each operation.

Mr. Lawson served as a director of American Resource Corporation Limited ("ARCL") until April 2005. ARCL corrected the filing deficiencies that led to the management cease trade orders and the relevant provincial securities regulatory authorities fully revoked the management cease trade orders in June 2008.

Mr. Pollock was a director of Fraser until February 2011. Fraser voluntarily applied for and obtained an order for creditor protection under the *Companies' Creditors Arrangement Act* (Canada) in June 2009, and on February 10, 2011, the Ontario court sanctioned an amended plan of compromise and arrangement under that statute that provided for, among other things, the sale of most of Fraser's remaining property and the making of distributions to Fraser's creditors.

RATINGS AND LIQUIDITY

The credit ratings for the Corporation's securities as at the date of this Annual Information Form were as follows:

Securities of the Corporation	DBRS		Standard & Poor's		Moody's		Fitch	
	Rating	Outlook	Rating	Outlook	Rating	Outlook	Rating	Outlook
Commercial paper	R-1 (low)	Stable	A-1 (low)	Negative	Not rated	Not rated	Not rated	Not rated
Senior notes and debentures	A (low)	Stable	A-	Negative	Baa2	Stable	BBB	Stable
Subordinated notes and debentures	Not rated	Not rated	BBB	Negative	Not rated	Not rated	Not rated	Not rated
Preferred shares	Pfd-2 (low)	Stable	P-2	Negative	Not rated	Not rated	Not rated	Not rated

Credit ratings are important to the Corporation's borrowing costs and ability to raise funds. A rating's downgrade could potentially have adverse consequences by reducing the Corporation's access to capital markets and increasing its borrowing costs. The terms of our various credit agreements and other financing documents require us to comply with a number of customary financial and other covenants, such as maintaining debt service coverage and leverage ratios, insurance coverage and, in limited circumstances, rating levels. These covenants may limit our flexibility in our operations, and breaches of these covenants could result in defaults under the instruments governing the applicable indebtedness even if we had satisfied our payment obligations.

Credit ratings are intended to provide investors with an independent measure of the credit quality of an issue of securities. Each of the Corporation's debt and preferred securities are rated by DBRS Limited ("DBRS") and by Standard & Poor's ("S&P"), and its senior notes and debentures are also rated by Moody's Investor Service ("Moody's") and Fitch Ratings Ltd. ("Fitch"). The following is a brief description of each rating agency's rating schedule.

DBRS rates commercial paper, long-term debt and preferred shares with ratings of "R-1", "AAA" and "Pfd-1", respectively, which represent the highest ratings, to "R-5", "C" and "Pfd-5", which represent the lowest, with "D" for issues in payment default. To show relative rankings within these rating categories, DBRS may modify them by the addition of "(high)" or "(low)".

S&P rates commercial paper, long-term credit and preferred shares with ratings of "A-1", "AAA" and "P-1", respectively, which represent the highest ratings, to "C", which represents the lowest, with "D" for issues in payment default. To show relative rankings within these rating categories, S&P may modify them by the addition of a plus "+" or minus "-". DBRS and S&P further modify their ratings by indicating the stability of an assigned rating with terms such as "stable," "positive" and "negative".

Moody's rates long-term obligations with ratings of "Aaa", which represents the highest rating, to "C", which represents the lowest. To show relative rankings within these rating categories, Moody's may modify them by the addition of a "1", "2" or "3" to indicate relatively higher, middle or lower ranking.

Fitch rates long-term obligations with ratings of "AAA", which represents the highest rating, to "C", which represents the lowest. To show relative rankings within these categories, Fitch may modify them by the addition of a plus "+" or minus "-". Fitch modifies its ratings by indicating the outlook of an assigned rating with terms such as "stable", "positive" and "negative".

A definition and description of the categories of the credit ratings described above which have been assigned to the Corporation's debt and preferred securities are publicly available from the website of each of the individual ratings agencies.

The ratings discussed above for the Corporation's debt and preferred securities are not a recommendation to purchase, hold or sell the Corporation's debt and preferred securities and do not comment as to market price or suitability for a particular investor. There can be no assurance that the ratings shown above will remain in effect for any given period of time or that the ratings will not be revised or withdrawn in their entirety by any or all of DBRS, S&P, Moody's or Fitch in the future if, in their judgment, circumstances so warrant.

The investment ratings of our publicly traded subsidiaries are presented in the respective Annual Information Forms of these subsidiaries, which are available on SEDAR at www.sedar.com.

DIVIDENDS AND DIVIDEND POLICY

Class A Limited Voting Shares and Class B Limited Voting Shares

The declaration and payment of dividends on the Corporation's Class A Limited Voting Shares and Class B Limited Voting Shares are at the discretion of the Board of Directors. Dividends on the Class A Limited Voting Shares and Class B Limited Voting Shares are paid quarterly, normally at the end of February, May, August and November of each year. The Board of Directors supports a stable and consistent dividend policy for these shares and will consider increasing dividends from time to time at a rate based on a portion of the growth rate in cash flow from operations per share. Special dividends may also be declared from time to time to implement corporate strategic initiatives.

The Corporation has a Dividend Reinvestment Plan which enables registered holders of Class A Limited Voting Shares who are resident in Canada to receive their dividends in the form of newly issued Class A Limited Voting Shares. The price of the new shares is equal to the weighted average price at which board lots of Class A Limited Voting Shares have traded on the TSX during the five trading days immediately preceding the relevant dividend payment date. Our Dividend Reinvestment Plan allows current shareholders of the Corporation who are resident in Canada to increase their investment in the Corporation free of commissions.

AUDIT COMMITTEE INFORMATION

Responsibilities of the Audit Committee

The Corporation's board of directors has established an Audit Committee with the responsibility for monitoring the Corporation's systems and procedures for financial reporting and internal controls, for reviewing all public disclosure documents containing financial information, and for monitoring the performance of the Corporation's external and internal auditors. The responsibilities of the Audit Committee are set out in a written charter, which is reviewed and approved annually by the board of directors. The current Charter of the Audit Committee is set out in full in Appendix C to this Annual information Form.

Composition of the Audit Committee

As at the date of this Annual Information Form, the Audit Committee is comprised of the following four directors: Marcel R. Coutu; Jack M. Mintz; Youssef A. Nasr; and George S. Taylor, who is the Committee's chairman. The Corporation's board of directors has determined that all of these directors are independent and financially literate, and that Mr. Coutu, Mr. Nasr and Mr. Taylor each qualify as an "audit committee financial expert". Mr. Coutu has a Masters Degree in Business Administration and over 15 years' experience in investment banking and corporate finance. He is currently President and Chief Executive Officer of Canadian Oil Sands Limited. Mr. Nasr has over 30 years' experience in the financial industry. He was the former Chairman and Chief Executive Officer of HSBC Middle East Ltd. and President and Chief Executive Officer of the HSBC group's business in North and South America. Mr. Taylor is a Certified Management Accountant and has extensive financial and senior management experience with a public company as an executive of John Labatt Limited from 1977 to 1995. Mr. Mintz has had an extensive academic career in business economics and taxation and has served on the boards and audit committees of several public companies and non-profit organizations.

Additional information on the members of the Audit Committee is contained in the Circular.

Principal Accountant Fees and Services

Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu and their respective affiliates (collectively "Deloitte & Touche") are the principal external auditor of the Corporation and its consolidated reporting issuer subsidiaries. The following table provides information about the aggregate fees billed to the Corporation and its consolidated subsidiaries for professional services rendered by Deloitte & Touche during 2011 and 2010:

YEARS ENDED DECEMBER 31 (MILLIONS)	2011			2010		
	<i>Brookfield</i>	<i>Subsidiaries of Brookfield</i>	<i>Total</i>	<i>Brookfield</i>	<i>Subsidiaries of Brookfield</i>	<i>Total</i>
Audit fees	\$ 3.2	\$ 25.0	\$ 28.2	\$ 3.5	\$ 20.5	\$ 24.0
Audit-related fees	0.3	9.1	9.4	0.3	12.5	12.8
Tax fees	—	0.2	0.2	—	0.1	0.1
Other fees	0.3	0.6	0.9	0.2	0.3	0.5
Total	\$ 3.8	\$ 34.9	\$ 38.7	\$ 4.0	\$ 33.4	\$ 37.4

Audit Fees. Audit fees include fees for services that would normally be provided by the external auditor in connection with statutory and regulatory filings or engagements, including fees for services necessary to perform an audit or review in accordance with generally accepted auditing standards. This category also includes services that generally only the external auditor reasonably can provide, including comfort letters, statutory audits, attest services, consents and assistance with and review of certain documents filed with securities regulatory authorities.

Audit-Related Fees. Audit-related fees are for assurance and related services, such as due diligence services, that traditionally are performed by the external auditor. More specifically, these services include, among others: employee benefit plan audits, due diligence related to mergers and acquisitions, accounting consultations and audits in connection with acquisitions, attest services that are not required by statute or regulation, and consultation concerning financial accounting and reporting standards.

Tax Fees. Tax fees are principally for assistance in tax return preparation and tax advisory services.

All Other Fees. All other fees include fees for translation, litigation and advisory support services.

Pre-Approval Policies and Procedures

The Audit Committee of the Corporation's board of directors has adopted a policy regarding the provision of services by its external auditor, currently Deloitte & Touche. This policy requires audit committee pre-approval of all permitted audit, audit-related and non-audit services. It also specifies a number of services that may not be provided by the Corporation's external auditor, including all services prohibited by law from being provided by the external auditor.

Under the policy, all permitted services to be provided by the external auditor must be pre-approved by the Audit Committee or a designated member of the Audit Committee. Any pre-approval granted by a designated member must be reported to the Audit Committee at its next scheduled meeting. The pre-approval of services may be given at any time up to a year before commencement of the specified service.

The Audit Committee may delegate its pre-approval authority and responsibility to the audit committee of any consolidated subsidiary of the Corporation in respect of services to be provided to such subsidiary, provided that such subsidiary's audit committee members are independent from the Corporation and its management, such subsidiary adopts pre-approval policies and procedures that are substantially similar to those of the Corporation, and such subsidiary's audit committee makes certain reports to the Corporation's audit committee.

Subject to the above mentioned policy, the Audit Committee may establish fee thresholds for a group of pre-approved services, provided that such fees will, when combined with all such fees that have not been specifically approved by the Audit Committee, aggregate less than 25% of the anticipated audit fees for the Corporation and its subsidiaries for the same year. In such cases, the description of services must be sufficiently detailed as to the particular services to be provided to ensure that (i) the Audit Committee knows precisely what services it is being asked to pre-approve and (ii) the Audit Committee's responsibilities are not delegated to management. All such services will be ratified at the next scheduled meeting of the Audit Committee, and upon such ratification will no longer be included in determining the aggregate fees covered by this limited approval.

None of the fees reported in this Annual Information Form under the heading "Principal Accountant Fees and Services" were subject to the de minimis exception from Audit Committee pre-approval provided by Rule 2-01(c)(7)(i)(C) of Regulation S-X.

The following is a summary of certain provisions attaching to or affecting the Class A Preference Shares as a class.

Series

The Class A Preference Shares may be issued from time to time in one or more series. The board of directors of the Corporation will fix the number of shares in each series and the provisions attached to each series before issue.

Priority

The Class A Preference Shares rank senior to the Class AA Preference Shares, the Class A Limited Voting Shares, the Class B Limited Voting Shares and other shares ranking junior to the Class A Preference Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs. Each series of Class A Preference Shares ranks on a parity with every other series of Class A Preference Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs.

Shareholder Approvals

The Corporation shall not delete or vary any preference, right, condition, restriction, limitation or prohibition attaching to the Class A Preference Shares as a class or create preference shares ranking in priority to or on parity with the Class A Preference Shares except by special resolution passed by at least 66 2/3% of the votes cast at a meeting of the holders of the Class A Preference Shares duly called for that purpose, in accordance with the provisions of the articles of the Corporation.

Each holder of Class A Preference Shares entitled to vote at a class meeting of holders of Class A Preference Shares, or at a joint meeting of the holders of two or more series of Class A Preference Shares, has one vote in respect of each C\$25.00 of the issue price of each Class A Preference Share held by such holder.

Upon such payment, the holders of the Class A Preference Shares, Series 33 will not be entitled to share in any future distribution of assets of the Corporation.

CERTAIN PROVISIONS OF THE CLASS AA PREFERENCE SHARES AS A SHARE

The following is a summary of certain provisions attaching to or affecting the Class AA Preference Shares as a class.

Series

The Class AA Preference Shares may be issued from time to time in one or more series. The board of directors of the Corporation will fix the number of shares in each series and the provisions attached to each series before issue.

Priority

The Class AA Preference Shares rank junior to the Class A Preference Shares and senior to the Class A Limited Voting Shares, the Class B Limited Voting Shares and other shares ranking junior to the Class AA Preference Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs. Each series of Class AA Preference Shares ranks on a parity with every other series of Class AA Preference Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs.

Shareholder Approvals

The Corporation shall not delete or vary any preference, right, condition, restriction, limitation or prohibition attaching to the Class AA Preference Shares as a class except by special resolution passed by at least 66 2/3% of the votes cast at a meeting of the holders of the Class AA Preference Shares duly called for that purpose, in accordance with the provisions of the articles of the Corporation.

Each holder of Class AA Preference Shares entitled to vote at a class meeting of holders of Class AA Preference Shares, or at a joint meeting of the holders of two or more series of Class AA Preference Shares, has one vote in respect of each C\$25.00 of the issue price of each Class AA Preference Share held by such holder.

CERTAIN PROVISIONS OF THE CLASS A LIMITED VOTING SHARES AND THE CLASS B LIMITED VOTING SHARES

The following is a summary of certain provisions attaching to or affecting the Class A Limited Voting Shares (into which certain series of the Corporation's Preference Shares may be converted) and the Class B Limited Voting Shares. The attributes of the Class A Limited Voting Shares and the Class B Limited Voting Shares are substantially equivalent, except for the differing voting rights attached to the two classes of shares.

The sole holder of the Class B Limited Voting Shares of the Corporation is a party to a trust agreement with Computershare Trust Corporation of Canada (formerly, Montreal Trust Corporation of Canada) (as trustee for the holders of the Corporation's Class A Limited Voting Shares) dated August 1, 1997. The trust agreement provides, among other things, that the holder has agreed not to sell any Class B Limited Voting Shares, directly or indirectly, pursuant to a takeover bid, unless a concurrent bid is made to all holders of Class A Limited Voting Shares. The concurrent offer must be: (i) for the same percentage of Class A Limited Voting Shares as the percentage of Class B Limited Voting Shares offered to be purchased from the holder; and (ii) the same in all material respects as the offer for the Class B Limited Voting Shares. Among other things, the trust agreement permits: (i) a sale by the sole holder of Class B Limited Voting Shares at a price per share less than 115% of the market price of Class A Limited Voting Shares and as part of a transaction involving not more than five persons in the aggregate; and (ii) a direct or indirect sale of shares of the sole holder of the Class B Limited Voting Shares to a purchaser who is or will become a shareholder of that holder and will not hold more than 20% of that holders' outstanding shares as a result of the transaction.

Priority

Subject to the prior rights of the holders of the Class A Preference Shares, the Class AA Preference Shares and any other senior-ranking shares outstanding from time to time, holders of Class A Limited Voting Shares and Class B Limited Voting Shares rank on a parity with each other with respect to the payment of dividends (if, as and when declared by the board of directors of the Corporation) and the return of capital on the liquidation, dissolution or winding up of the Corporation or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding up its affairs.

Voting Rights

Except as set out below under "Election of Directors", each holder of Class A Limited Voting Shares and Class B Limited Voting Shares is entitled to notice of, and to attend and vote at, all meetings of the Corporation's shareholders, other than meetings at which holders of only a specified class or series may vote, and shall be entitled to cast one vote per share. Subject to applicable law and in addition to any other required shareholder approvals, all matters to be approved by shareholders (other than the election of directors), must be approved: by a majority or, in the case of matters that require approval by a special resolution of shareholders, at least 66 2/3%, of the votes cast by holders of Class A Limited Voting Shares who vote in respect of the resolution or special resolution, as the case may be; and by a majority or, in the case of matters that require approval by a special resolution of shareholders, at least 66 2/3%, of the votes cast by holders of Class B Limited Voting Shares who vote in respect of the resolution or special resolution, as the case may be.

Election of Directors

In the election of directors, holders of Class A Limited Voting Shares, together, in certain circumstances, with the holders of certain series of Class A Preference Shares, are entitled to elect one-half of the board of directors of the Corporation, provided that if the holders of Class A Preference Shares, Series 1, Series 2 or Series 3 become entitled to elect two or three directors, as the case may be, the numbers of directors to be elected by holders of Class A Limited Voting Shares, together, in certain circumstances with the holders of certain series of Class A Preference Shares, shall be reduced by the number of directors to be elected by holders of Class A Preference Shares, Series 1, Series 2 and Series 3. Holders of Class B Limited Voting Shares are entitled to elect the other one-half of the board of directors of the Corporation.

OTHER PROVISIONS REGARDING THE SHARE CAPITAL OF THE CORPORATION

The Corporation's articles provide that each holder of shares of a class or series of shares of the Corporation entitled to vote in an election of directors has the right to cast a number of votes equal to the number of votes attached to the shares held by the holder multiplied by the number of directors to be elected by the holder and the holders of shares of the classes or series of shares entitled to vote with the holder in the election of directors. A holder may cast all such votes in favour of one candidate or distribute such votes among its candidates in any manner the holder sees fit. Where a holder has voted for more than one candidate without specifying the distribution of votes among such candidates, the holder shall be deemed to have divided the holder's votes equally among the candidates for whom the holder voted.
