

BROOKFIELD

AT A GLANCE

We are a premier global alternative asset manager with approximately \$690 billion of assets under management. With a 100+ year heritage as an owner and operator, we focus on investing in assets and businesses that help form the backbone of the global economy. Throughout our operations in more than 30 countries on five continents, we are committed to supporting and enhancing the communities in which we operate.

Our goal is to deliver strong long-term returns and provide downside protection for our investors—including pension plans, endowments, foundations, sovereign wealth funds, financial institutions, insurance companies and individual investors. We invest our own capital alongside our investors in virtually every transaction, aligning interests and leveraging our deep operational expertise, global reach and access to large-scale capital.

Our approach is focused on investing on a value basis. We recognize that generating attractive returns often requires seeking out assets, businesses, markets and sectors that are out of favor or experiencing periods of distress. We are disciplined in acquiring high-quality assets and businesses that we believe can deliver strong performance across market cycles. And we take a long-term view in deploying capital—but are ready to act decisively when the right opportunities emerge.

We believe that sound environmental, social and governance (ESG) practices are integral to building resilient businesses and creating long-term value

for our investors and other stakeholders. As a result, we embed these principles into all our activities—including our investment process—and conduct our business in a sustainable and ethical manner. An emphasis on diversity and inclusion reinforces our culture of collaboration. It strengthens our ability to develop our people and maintain an engaged workforce focused on serving as a trusted partner and first-choice provider of investment solutions.

With a 100+ year heritage as an owner and operator, we focus on investing in assets and businesses that help form the backbone of the global economy.
